Project Description

This project includes the installation of a prefabricated single stall restroom structure inside of Franklin Square Park. The work supporting the installation of the restroom would be the modifications of the existing pedestrian pathways, ramp and staircase at the 17th street entrance to be compliant with current ADA codes and regulations, and installing the necessary utilities (sewer, water, electrical) to the restroom site location. Ground disturbance for the pathway improvements would be up to 8 inches and for the utility trenching up to 5 feet. No tree removal is proposed.

Determination

The City and County of San Francisco decided to carry out or approve the project on October 22, 2025 by issuing a Planning Approval Letter from the San Francisco Planning Department. The project was officially approved on November 24, 2025 when no appeal of the Class 1 Categorical Exemption was filed during the 30-day appeal period. A copy of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2025-008958ENV
