☐ No Effect Determination (From CDFW)  
☒ Proof of Payment of EIR Fee

### Introduction

Treasure Island and Yerba Buena Island (collectively, "the Islands") are in the San Francisco Bay, about halfway between the San Francisco mainland and the City of Oakland; together the Islands comprise approximately 550

acres. The Islands are the site of the former Naval Station Treasure Island ("NSTI"), which the United States Navy owned prior to its closure on September 20, 1997.

A final environmental impact report ("FEIR") for the subject project, file number 2007.0903E was certified on April 7, 2011. The project analyzed in the FEIR is the Treasure Island and Yerba Buena Island Area Plan ("Area Plan") which provides the basis for redevelopment of most of the Islands from a primarily low-density residential area with vacant and underutilized nonresidential structures to a new mixed-use community with a retail center, open space and recreational opportunities, on-site infrastructure, and public and community services.

The development program analyzed in the EIR included approximately 8,000 residential units (of which up to 2,000 units would be affordable)<sup>2,3</sup>, 140,000 square feet of commercial and retail space, 100,000 square feet of office space, up to 500 hotel rooms, and 300 acres of parks and open space. Development of the Islands also includes new transportation, bicycle and pedestrian facilities, a ferry terminal and a transit hub, public and community services, and new and upgraded utilities infrastructure. Other development activities include supplemental remediation to allow the proposed uses, geotechnical stabilization, and renovation and adaptive re-use of existing historic structures.

In connection with the project described below, the San Francisco Planning Department has determined that the project is within the scope of the development plan approved earlier and analyzed in the Treasure Island/Yerba Buena Island Final EIR.

## Project Description

The proposed project would construct a professional women's soccer training facility for Bay FC of the National Women's Soccer League. The approximately 8.5-acre "Phase I Property" project site is located towards the center of Treasure Island (Assessor's Block 8925), with 9<sup>th</sup> Street to the north, Avenue H (Macky Way) to the east, and 5<sup>th</sup> Street (Golden Bell Way) to the south, and the future Passiflora Way Extension to the west. The project site contains a two-story commercial building approximately 50,000 square feet in size and stockpile soil associated with the Treasure Island/Yerba Buena Island Development Project.

The modified project would demolish the existing two-story building, remove the stockpile soil, grade the project site, and construct a soccer facility consisting of a 25-foot-tall, approximately 25,000-square-foot athletic training building, three full-sized soccer fields, and approximately 76 vehicle parking spaces would be provided on or immediately adjacent to the Phase I Property for Bay FC team use. The athletic training building would include indoor and outdoor facilities for Bay FC team use, including but not limited to athletic training, conditioning, weight rooms, medical and wellness treatment, food preparation and dining, laundry, locker rooms, lounges, meeting and event areas, and spaces for athletic staff offices. The building would be supported on a concrete slab or micro-piles.

---

<sup>2</sup> San Francisco Planning Department, "Treasure Island and Yerba Buena Island Development Project Final EIR," dated 2007, Planning Department, Case No. 2007.0903PHA-07, 2007, available at [Environmental Review Documents | SF Planning](#), accessed December 3, 2025.

<sup>3</sup> Subsequent to the issuance of the Final EIR, the Planning Department has approved a number of projects on Treasure Island and Yerba Buena Island, including the construction of a new high-rise office building, a new hotel, and a new residential development. These projects are consistent with the development plan approved in the Final EIR and are being developed in accordance with the plan.

<sup>4</sup> San Francisco Planning Department, "Treasure Island and Yerba Buena Island Development Project Final EIR," dated 2007, Planning Department, Case No. 2007.0903PHA-07, 2007, available at [Environmental Review Documents | SF Planning](#), accessed December 3, 2025.

The three soccer practice fields would include two natural grass fields and one artificial turf field, with irrigation systems. Ball stop nets at a height of approximately 32 feet above grade would be provided along the perimeter of the three practice fields. A field bubble or other weatherproof temporary cover may be provided on one field at certain times of year to allow for practices to be held in inclement weather. The temporary cover would be a maximum of 80 feet above grade. Amplified sound and lighting would be provided to serve the practice fields. One practice field would have up to four 75-foot-tall lights positioned at the field perimeter to allow for use of the practice fields during the evenings. The lights would typically be activated at dusk approximately 2-3 times a month for specialty training sessions or community sporting events and would operate at 100 or 60 percent capacity until 10 pm.<sup>4</sup> The proposed lights are designed to concentrate the light on the field area with minimal light emitted outside the targeted areas. The proposed lighting system, which is specifically designed for sports fields, would be equipped with spill and glare shielding. The light system would be designed to focus the light on the field evenly while minimizing the spread of light upward and beyond the project site boundaries.

A potential Phase II of the project could provide up to three additional soccer fields on a 7.5-acre site (the "Phase II Property") east of the Phase I Property. The specific programming for the Phase II Property would be subject to a public space planning process to be conducted in the future.

## **Determination**

The Treasure Island/Yerba Buena Island Development Plan Final EIR was certified on April 21, 2011 and the first approval actions took place on April 21, 2011 by which San Francisco Planning Commission adopted General Plan Amendments and the Treasure Island/Yerba Buena Island Area Plan, and by which the Treasure Island Development Authority Board approved the Treasure Island Treasure Island Design for Development document, among other actions. The project was officially approved on June 7, 2011 when the San Francisco Board of Supervisors affirmed the Planning Commission's certification of the Final EIR upon appeal.

The City and County of San Francisco decided to carry out or approve the Bay FC project on November 20, 2025 when the Planning Commission approved the Major Modification Application. The project was officially approved on December 1, 2025 when no appeal of the entitlement was filed. A copy of the documents may be examined at the San Francisco Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103.

1. An Environmental Impact Report has been prepared pursuant to the provisions of CEQA. It is available to the public and may be examined at the Planning Department at the above address.
2. A determination has been made that the project in its approved form will have a significant effect on the environment.
3. Mitigation measures were made a condition of project approval for the project.
4. A mitigation and monitoring reporting program was adopted for this project.

---

<sup>4</sup> See also, Appendix 5 to the Environmental Impact Statement for the project, which is available at the above address.

5. A statement of overriding considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.
