Good Morning,

My name is Dave Weber and I have been a Location Scout and Manager for Commercials, Film and Television for the past 15 years. I work primarily in the Bay Area and Northern California, San Francisco being a major portion of that work.

The San Francisco Film Commission is an integral part of our community and without their hard work and dedication we would lose a vital part of our film family. I've worked with hundreds of Film Commissions over the years and there are only a handful that run as efficiently as the one in SF. Because of that reason Producers and Film Productions come to San Francisco knowing that they will be able to find the locations they need to complete their productions. Besides the many Movies and TV Shows that have used SF as their backdrop, hundreds of commercials have also passed through the city and have used it as a jumping point to film additional pieces for their incredibly successful campaigns. SF is the heart of Bay Area Filming and attracts people to its city when filming from Mendocino to Big Sur and Oakland to Tahoe. It is a local and international hub and taking anything away from them would hinder their ability to work as efficiently as they do.

The SF Film Commission is indirectly responsible for hundreds of production positions, hotel stays, vacation trips, and local businesses patronized. Their reach spreads far and wide, well past the borders of the city and into hearts and homes around the world.

Everyone single person on the team is important, it would be a shame to lose any of that.

I hope you choose to keep them whole and boost them up.

Thank you for your time.

Dave
