Dear Streamlining Task Force members,

As a former member of the senior San Francisco Public Library (SFPL) administration (1989 – 2010), I strongly urge you to keep the Library Commission as is, a governance commission established in the City Charter. The Public Library today is one of the most successful and popular departments in the City. A large part of this success is thanks to the good policy and fiscal oversight administered by the Library Commission over many decades. As a body representing the people of San Francisco, the Library Commission has played a historically strong role of support for the Public Library, without which the SFPL would not enjoy the high levels of skills and staff leadership that benefit the public today.

Thank you for your thoughtful attention to this matter.

Sincerely,
Marcia Schneider
Former Chief of Branches and Communications
