RE: October 15th recommendations to eliminate Commissions and Committees

Dear Commission Streamlining Task Force:

The commission streaming staff are [recommending](#) that Homeless Oversight Commission, LHCB, Shelter Monitoring Committee, Our City Our Home all be either combined or eliminated, and the Shelter Grievance Advisory Committee be eliminated.

These are incredibly important bodies that allow for participatory democracy on focused issues that have real impact on the lives of unhoused people.

I vote on all of them in one recommendation to keep same, or break them off for individual votes. I am encouraging the Commission Streamlining Staff to keep them as they all play unique and important roles. Thank you!
