Dear Members of the Board of Supervisors and Commission Streamlining Task Force,

On behalf of the Chinese Progressive Association (CPA), I am writing to express my support for the Immigrant Rights Commission (IRC) and the Youth Commission (YC). CPA works with low income immigrant workers and youth, and we believe that the City Government should always make its decisions with input from our immigrant communities and young people. The Immigrant Rights Commission and Youth Commission have served as a critical voice for immigrant communities and youth respectively in San Francisco, shaping policies, improving language access, ensuring that City services remain accessible to all residents.

We urge the City's Commission Streamlining Task Force to NOT consolidate the IRC and YC with another body and to not subject them to an automatic three-year "sunset" review.

Thank you for your attention.

Claire Lau
