Hi,

Please my public comment below in regards to SPWG agenda item for tomorrow's TaskForce Meeting.

I was member of SPWG for about 10 years and this body has been important to me because it collectively uplifted concerns and challenges of service providers who are directly working children, youth and their families. SPWG was written into the Charter to guarantee that those closest to San Francisco's youth and families have a voice in shaping decisions that affect them. If compliance is in question, it should prompt collaboration, not elimination. We urge the Task Force to pause, hear more from SPWG, and identify an effective path that keeps community voices strong while meeting transparency standards. Thank you!
