Greetings Commissioner Meeting Staff,

I am writing on behalf of all SF residents who want and need to be heard during meetings. And, also, who deserve wider representation in San Francisco.

Asking that you do not agree to reduce commissions and public Comment for us.

Below are some statements to consider.

- Keep the Disability and Aging Commission in its current role as Governing Body
- Keep the Dignity Fund Oversight and Advisory Council in its current role as an advisory body
- **Keep the Disability and Aging Advisory Committee as a federally required advisory body.**
- The overall impact of the proposed change is to reduce transparency and give the Mayor total (direct and indirect via his appointment power) control of what should be public input.

- There's no good rationale to reduce the number of seats
- **There is no plan for how to do that and keep diversity and representation from various constituencies,**
- The task force's proposal is not going to save money, and you lose thousands of hours of high-level volunteer time.

Support your residents and widen publiccomment and the scope of all commissions.

Thank you.

Sincerely,

Julie Fisher
