Subject: Animal Welfare Commission
Date: Friday, October 31, 2025 2:01:50 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Please do not shut down this commission as the animals and people who care for them need to have a place to go to for discussion of animal welfare.

Over the years, there have been many meetings that have shed light on the inner workings of the two big shelters, SFACC and SFSPCA and this has been very helpful to animal rescues and people who use these animal shelters. It has helped change policies at both places and made folks realize what goes on inside these places and what can be done to help animals through them.

The board of supervisors depends on the commission to figure out what needs animals and their owners have and how to fix policy and laws that will help us all.

Please do not eliminate this commission!

Toni Sestak of Toni's Kitty Rescue
