Hello,

In case I can't make it, I want to suggest that the Art Commission have more authority over the murals that are on Rec and Park property and other city departments property.

Rec and Park is in the business of parks and recreational areas. Not art.

A number of years ago the Art Commission had money to fix up the mothers building murals, but could not because Rec and Park did not fix up the building. Well this needs to change. The Art Commission needs to have a more active role like to take ownership of the building and repair the building and then fix the murals. Or if your committee has another solution, that's OK with me as long as the murals are protected.

Thanks

Richard
