Commissioners Streamlining Task Force,

The Commission Streamlining Task Force's recommendation to downgrade the Commission on the Environment to advisory status - and after 3 years to eliminate it altogether - is damaging to San Francisco's reputation as a climate leader, to say nothing of the actual health and safety of City residents.

Climate is the No. 1 concern in my household. We are keenly opposed to your aggressive pro-development stance and willingness to commodify public lands, and on that basis alone you will not be my No. 2 tier vote next round unless we see some serious consideration of our city's long-term environmental health and sustainability.

Mark E. Pothier
