Dear Commission Streamlining Task Force,

I am a District 2 representative on the Bicycle Advisory Committee. The committee is all volunteer and more importantly it's the only committee that represents voices of people who ride bicycles in our city. Bicycling serves as both transportation and recreation. Bicycling is a powerful tool for physical fitness and mental clarity, providing freedom, exploration, and community. Without the BAC, people who ride bicycles or other modes of non-motorized transportation will no longer have a voice at City Hall, which remains a grand monument to civic pride. Our unique and invaluable perspective on safe streets would be lost forever.

Sincerely,
Whitney Ericson
SF Bicycle Advisory Committee, D2
