Subject: Report on 2025 Accidental Overdose Deaths

The enclosed report provides data of accidental overdose deaths in the City and County of San Francisco from January 1, 2024, to December 31, 2025. The number of accidental overdose deaths in 2025 was 625.

The number of accidental overdose deaths involving Fluoro Fentanyl, Xylazine, Bromazolam, Phenazolam, Medetomidine, Desalkyl Gidazepam, and Ethyl Bromazolam from January 1, 2025, to December 31, 2025 are as follows:

- Fluoro Fentanyl, 38
- Xylazine, 27
- Bromazolam, 11
- Phenazolam, 6
- Medetomidine, 4
- Desalkyl Gidazepam, 1
- Ethyl Bromazolam, 1

The reports are published by the Office of the Chief Medical Examiner (OCME), Forensic Laboratory Division, to comply with local and state reporting guidelines and further OCME's mission to provide neutral data to inform policymakers. These reports are not intended to replace other death statistics within the City that rely on finalized death certificates.

Pertinent for accurate use of these reports is understanding the source of the data and its subsequent summarization process. Decedent demographic and case information were obtained from the OCME case management system. Additionally, specific details from investigator narratives, forensic toxicology results, and where available, preliminary autopsy findings, were utilized. Collected demographic information included race, gender, age, fixed address status, fixed address location, and death location.

Closed casework included any drug and alcohol-involved accidental overdose where the death has been certified.

Sincerely,

A handwritten signature in blue ink, appearing to read "Luke N. Rodda".

Luke N. Rodda, Ph.D.
Chief Forensic Toxicologist and Director, Forensic Laboratory Division

0.00% Acc. Overdoses Open
100.00% Acc. Overdoses Closed

"Acc. Overdoses Open" cases do not have a final cause and manner of death classification; "Acc. Overdoses Closed" cases have a final cause and manner of death classification.
 "Fixed Address" denotes a verifiable address associated with the decedent, which may indicate their residence; it is not intended to verify a decedent's legal domicile, which is a broader legal concept, pertaining to a person's permanent and primary residence for various legal matters.
 "No Fixed Address" denotes a verifiable address associated with the decedent was unable to be determined (e.g., housing insecurity, multiple addresses in a short timeframe).
 "Unknown Address" denotes the inability to identify any reliable address associated with the decedent, or information source.
 "Death Location" denotes the specific location to which the relevant agencies were called upon to locate the decedent.
 For "Fixed Address Location" and "Death Location", the 4 most affected neighborhoods are represented, the "Others (non-SF)" category refers to all out county addresses, and the "Others (SF)" category refers to all other zip codes within the City and County of San Francisco.
 "Gender" refers to gender at time of death.
 "Total Deaths" denotes Accidental Overdoses where one or more drugs contribute to the cause of death; however, every point for each drug series is inclusive, but not necessarily exclusive, of that drug. "Total deaths" represents all accidental overdoses including ones for drugs not specified above.
