### Notice of Release of a Final Supplemental Environmental Impact Report

**NOTICE IS HEREBY GIVEN** that the California State Lands Commission (CSLC or Commission), as lead agency under the California Environmental Quality Act (CEQA), has prepared a Final Supplemental Environmental Impact Report (SEIR) to the San Francisco Bay and Delta Sand Mining Project EIR (certified on October 19, 2012), identified as State Clearinghouse (SCH) No. 2007072036. Pursuant to California Code of Regulations, title 14, section 15089, subdivision (b), Commission staff are providing an opportunity for public review of the Final SEIR.

**Project Title:** San Francisco Bay and Delta Sand Mining Project (Revised Project)

**Lead Agency:** California State Lands Commission

**Applicants:** Martin Marietta Marine Operations, LLC; Lind Marine, Inc.; and Suisun Associates

**Project Location:** Central San Francisco Bay, Suisun Bay, and the Middle Ground Shoals.

The Commission will review and consider certification of the Final SEIR, and, if the Final SEIR is certified, take action on the Revised Project at the next scheduled meeting of the Commission on **February 9, 2026**. Further details on the Commission Meeting will be provided on the Commission's website at <http://www.slc.ca.gov/> as they become available.

The Draft SEIR was circulated for public review for a period of 45-days, beginning August 15, 2025, and ending September 29, 2025. The Final SEIR comprises the full text of the Draft SEIR as revised and includes the following parts:

- Preface (Part I)

- Comments and responses to comments received on the Draft SEIR during the 45-day public comment period, including a list of persons, organizations, and public agencies that provided comments (Part II)
- Revisions to the Draft SEIR and other information added to the SEIR (Part III)

**PROJECT SUMMARY:** Martin Marietta Marine Operations, LLC. (Martin Marietta) (formerly Hanson Marine Operations Inc., a Heidelberg Cement Group affiliate), Lind Marine Inc. (Lind), and Suisun Associates (collectively, the Applicants) hold leases issued by the CSLC to harvest sand commercially (sand mining) within the San Francisco Bay-Delta estuary. The CSLC is considering granting new leases of California sovereign lands (at the existing lease parcel sites) to the Applicants for an additional 10-year period. The leases, if granted, would allow the Applicants to continue mining sand within the lease area boundaries. The Applicants propose to mine a combined volume of 1,630,000 cubic yards per year from the CSLC parcels and 120,000 cubic yards per year from private parcels in Suisun Bay. The existing leases overlay sovereign lands under the jurisdiction of the CSLC: PRC 709.1 (Presidio, Alcatraz North, and Point Knox North Shoals); PRC 2036.1 (Point Knox South); PRC 7779.1 (Point Knox Shoal); PRC 7780.1 (Alcatraz South Shoal); and PRC 7781.1 (Suisun Bay/Delta). The Applicants have applied to the CSLC to reissue these leases to authorize commercial mining of sand for 10 additional years (evaluated by the CSLC as a revision to the previously approved Project). The SEIR supplements the environmental analysis in the San Francisco Bay and Delta Sand Mining Project Environmental Impact Report (certified on October 19, 2012).

**AVAILABILITY OF THE FINAL SEIR:** The Final SEIR and documents incorporated by reference into the SEIR may be viewed electronically or downloaded, in pdf format, through the CSLC website: <https://www.slc.ca.gov/ceqa/>. Copies of the Final SEIR will also be available in printed form at the following locations:

- California State Lands Commission, 100 Howe Avenue, Suite 100-South, Sacramento, CA 95825
- San Francisco Main Library, 100 Larkin Street, San Francisco, CA 94102

If you would like a printed copy of the Final SEIR mailed to you or if you have any questions or need further information, please contact Christopher Huitt at (916) 574-2080 or [CEQA.comments@slc.ca.gov](mailto:CEQA.comments@slc.ca.gov).
