San Francisco, CA 94102

Subject: Notice of Determination, Transbay Joint Powers Authority
Second Addendum to the 2018 Final SEIS/EIR for the Transbay Program
(State Clearinghouse Number 95063004)

Pursuant to the California Environmental Quality Act (CEQA) and the State CEQA Guidelines adopted by the Secretary for Resources, this Notice of Determination is transmitted to you for filing. At the end of the posting period, please return this Notice to the Transbay Joint Powers Authority (TJPA) with a notation of the dates of the posting period.

Project Description and Location: The approved project consists of refinements to the previously approved Downtown Rail Extension (DTX), now known as “The Portal,” that was evaluated in a 2004 Final Environmental Impact Statement (EIS)/Environmental Impact Report (EIR), as amended by six addenda adopted between 2006 and 2011; a 2018 Final Supplemental EIS/EIR (2018 Final SEIS/EIR), and an addendum to the 2018 Final SEIR adopted in 2023. The project is located in the City and County of San Francisco.

This Notice of Determination is for a second addendum to the 2018 Final SEIR. The Portal will extend rail service approximately 1.3 miles from the current northern Caltrain terminus at Fourth and King streets into the underground train box of the Salesforce Transit Center (Transit Center) and will also provide a northern terminus for future high-speed trains in downtown San Francisco. The refinements to The Portal involve the following:

- Eliminate the intercity bus facility and relocate the street-level entrance/exit pavilion with a public lobby and additional vertical circulation at the Transit Center on the west side of Beale Street
- Eliminate the train box extension at the Transit Center and move utilities from the underground train box to a new at-grade utility building
- Defer installation of most high-speed rail vertical circulation elements at the Transit Center
- Modify the Fourth and Townsend Street Station design by eliminating high-speed rail platforms and related concourse-level facilities
- Shorten the tunnel stub box
- Relocate and electrify storage tracks within the 4th and King railyards
- The TJPA’s acquisition of the building at 171 Second Street and temporary relocation of 171 Second Street tenants during construction

POSTED
MAR 18 2026
TO

Determination: The Second Addendum to the 2018 Final SEIR concludes that the project refinements would not result in new significant impacts or a substantial increase in the severity of significant impacts previously identified in the 2018 Final SEIR. No changes to the Findings and Statement of Overriding Considerations for the project analyzed in the 2018 Final SEIR are required as a result of the project refinements evaluated in the second addendum. The mitigation measures that were adopted and incorporated into the Transbay Program approved in 2004 and revised in 2018 remain in effect.

The TJPA, by TJPA Board Resolution No. 26-009, approved the project described and evaluated in the second addendum to the 2018 Final SEIR on March 12, 2026. A copy of the Second Addendum to the 2018 Final SEIR and the 2018 Final SEIS/EIR are available for examination at the TJPA office at 425 Mission Street, Suite 250, San Francisco, CA 94105.
