San Francisco
Department of Public Health

Hunters Point Naval Shipyard

November 16, 2026

Susan Philip, MD, MPH

Health Officer and Director, Population Health Division

Nnenna Okoye, MD, MPH

Medical Director, Chronic Disease Prevention and Climate Health, Population Health Division

Agenda

1. Our Commitment & Team
2. Regulatory Oversight & Roles
3. Remediation & Restoration Updates
4. Health Promotion in Bayview-Hunters Point
5. Community Engagement & Outreach Initiatives

Our Commitment to Health

INTERAGENCY ENGAGEMENT

Strengthen intentional interagency engagement between the City, Navy, and regulatory agencies.

COMMUNICATION

Improve and increase communication with the community to give access to more information and share knowledge.

COMMUNITY PARTNERSHIP

Forge stronger ties with the community to build new partnerships, develop community trust, and listen to concerns.

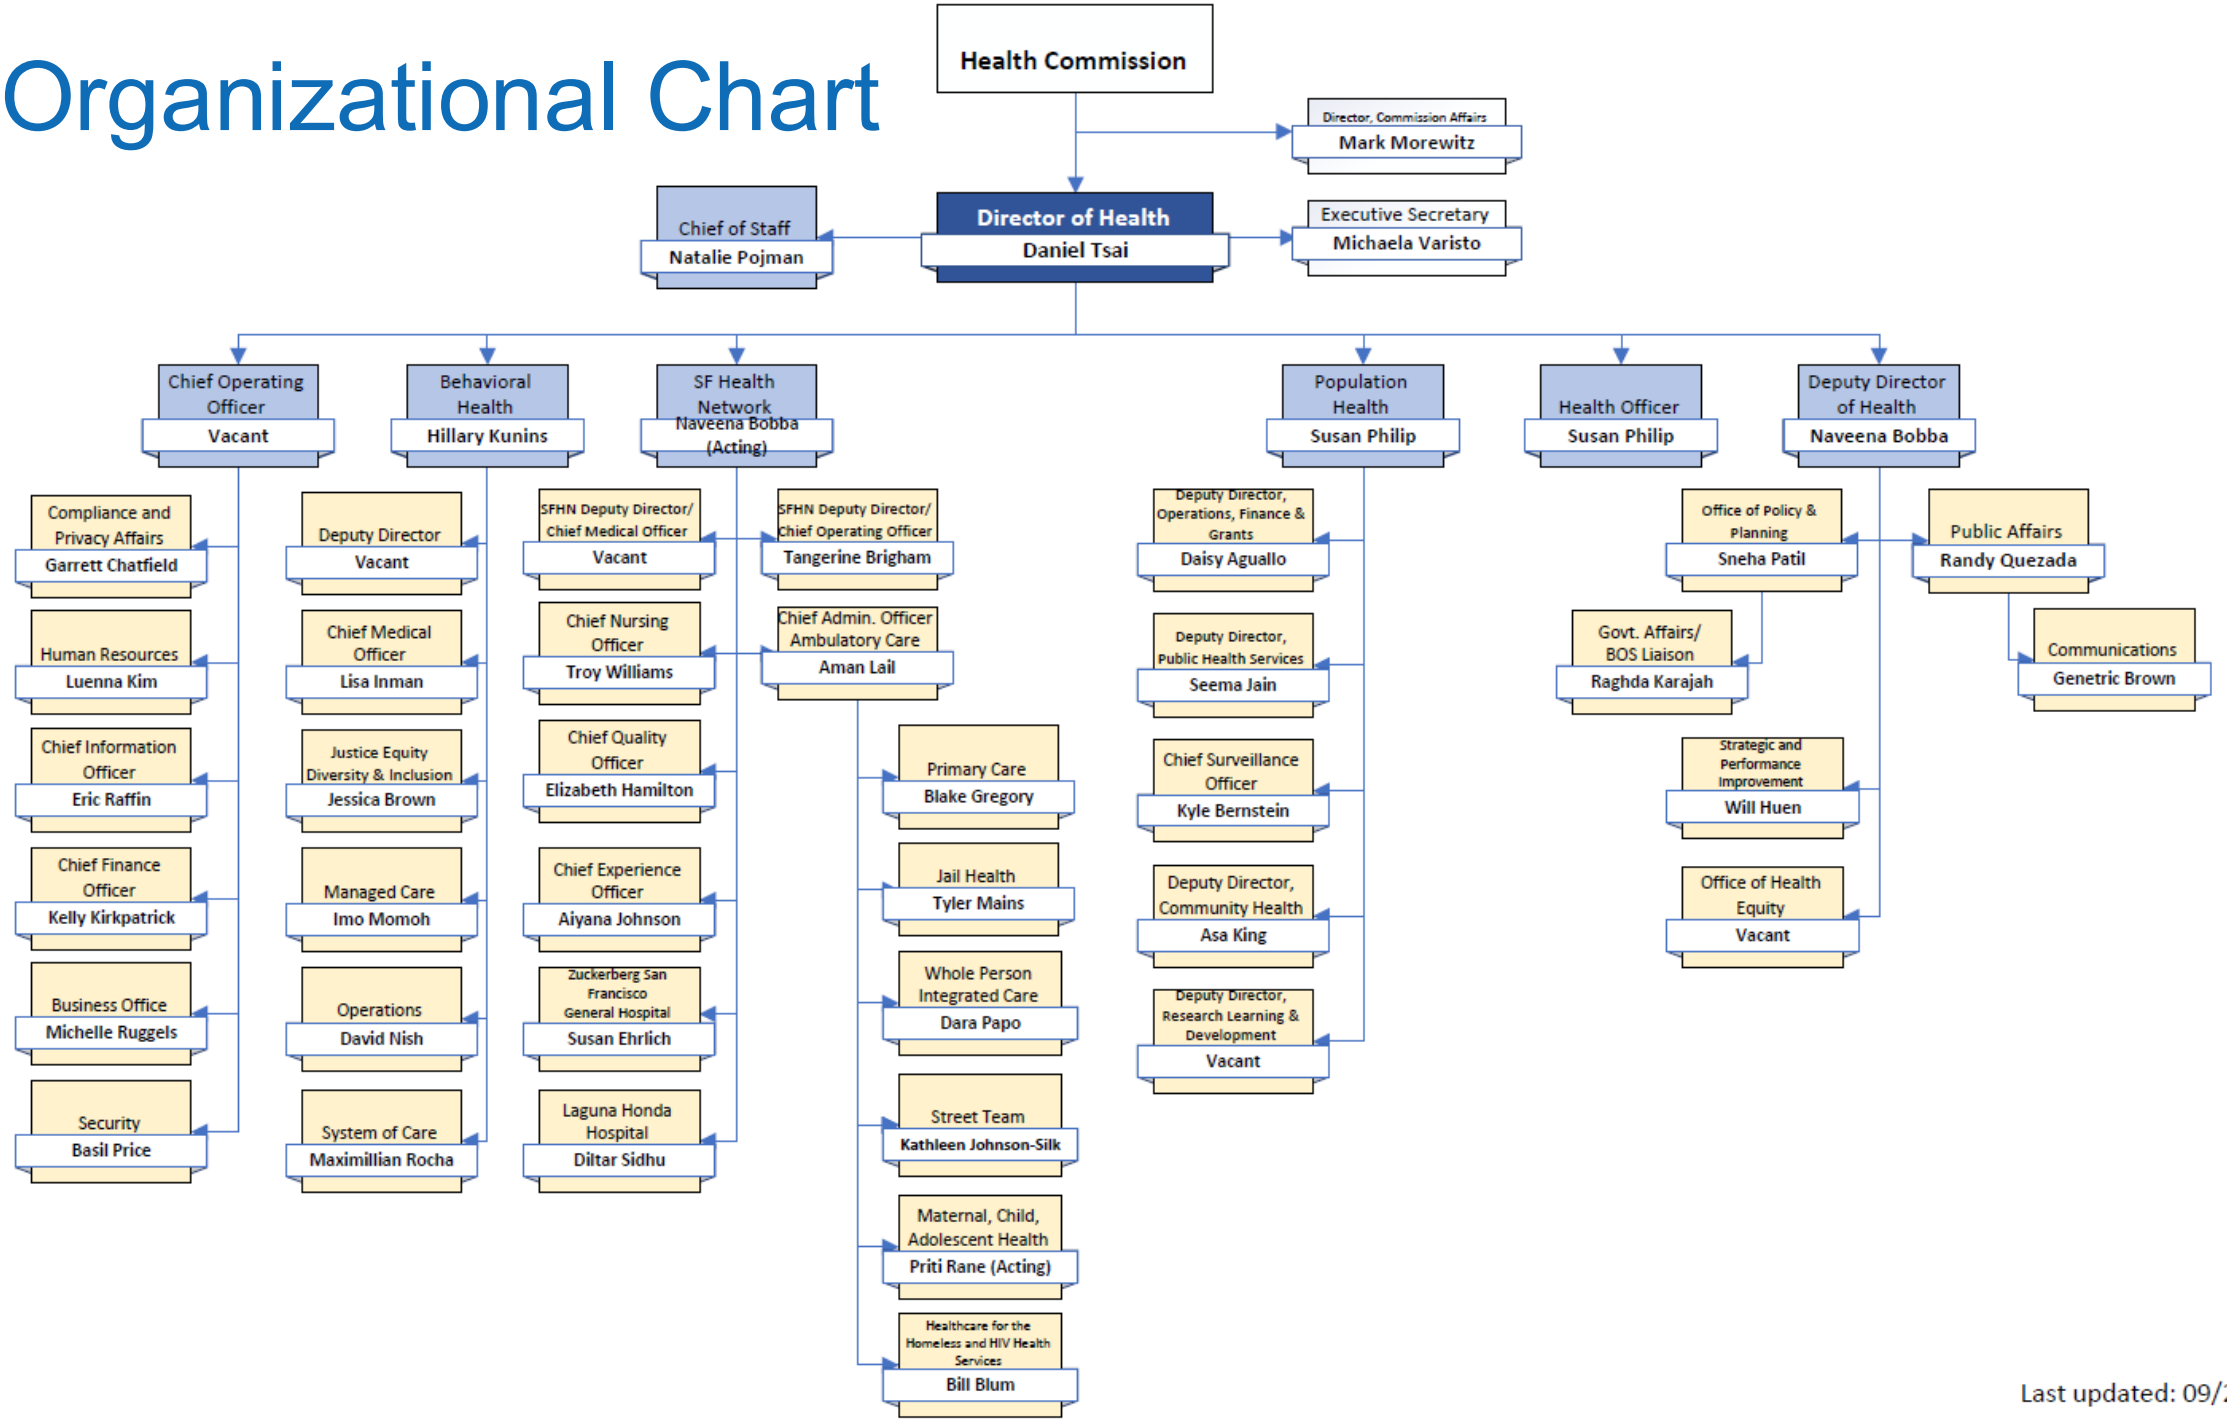

REDUCE HEALTH DISPARITIES

Resource community with tools and supports to improve health and reduce health disparities.

Who Does What – Oversight At A Glance

Lead Agency

US Navy: Agency responsible for the investigation and restoration of the Shipyard.

Federal and State Regulators

U.S. Environmental Protection Agency (EPA): Federal agency overseeing and enforcing the Navy's work.

Department of Toxic Substances Control (DTSC) & Regional Water Quality Board (Water Board): State agencies that support the EPA and represent the state of California in overseeing the Navy's work at the Shipyard.

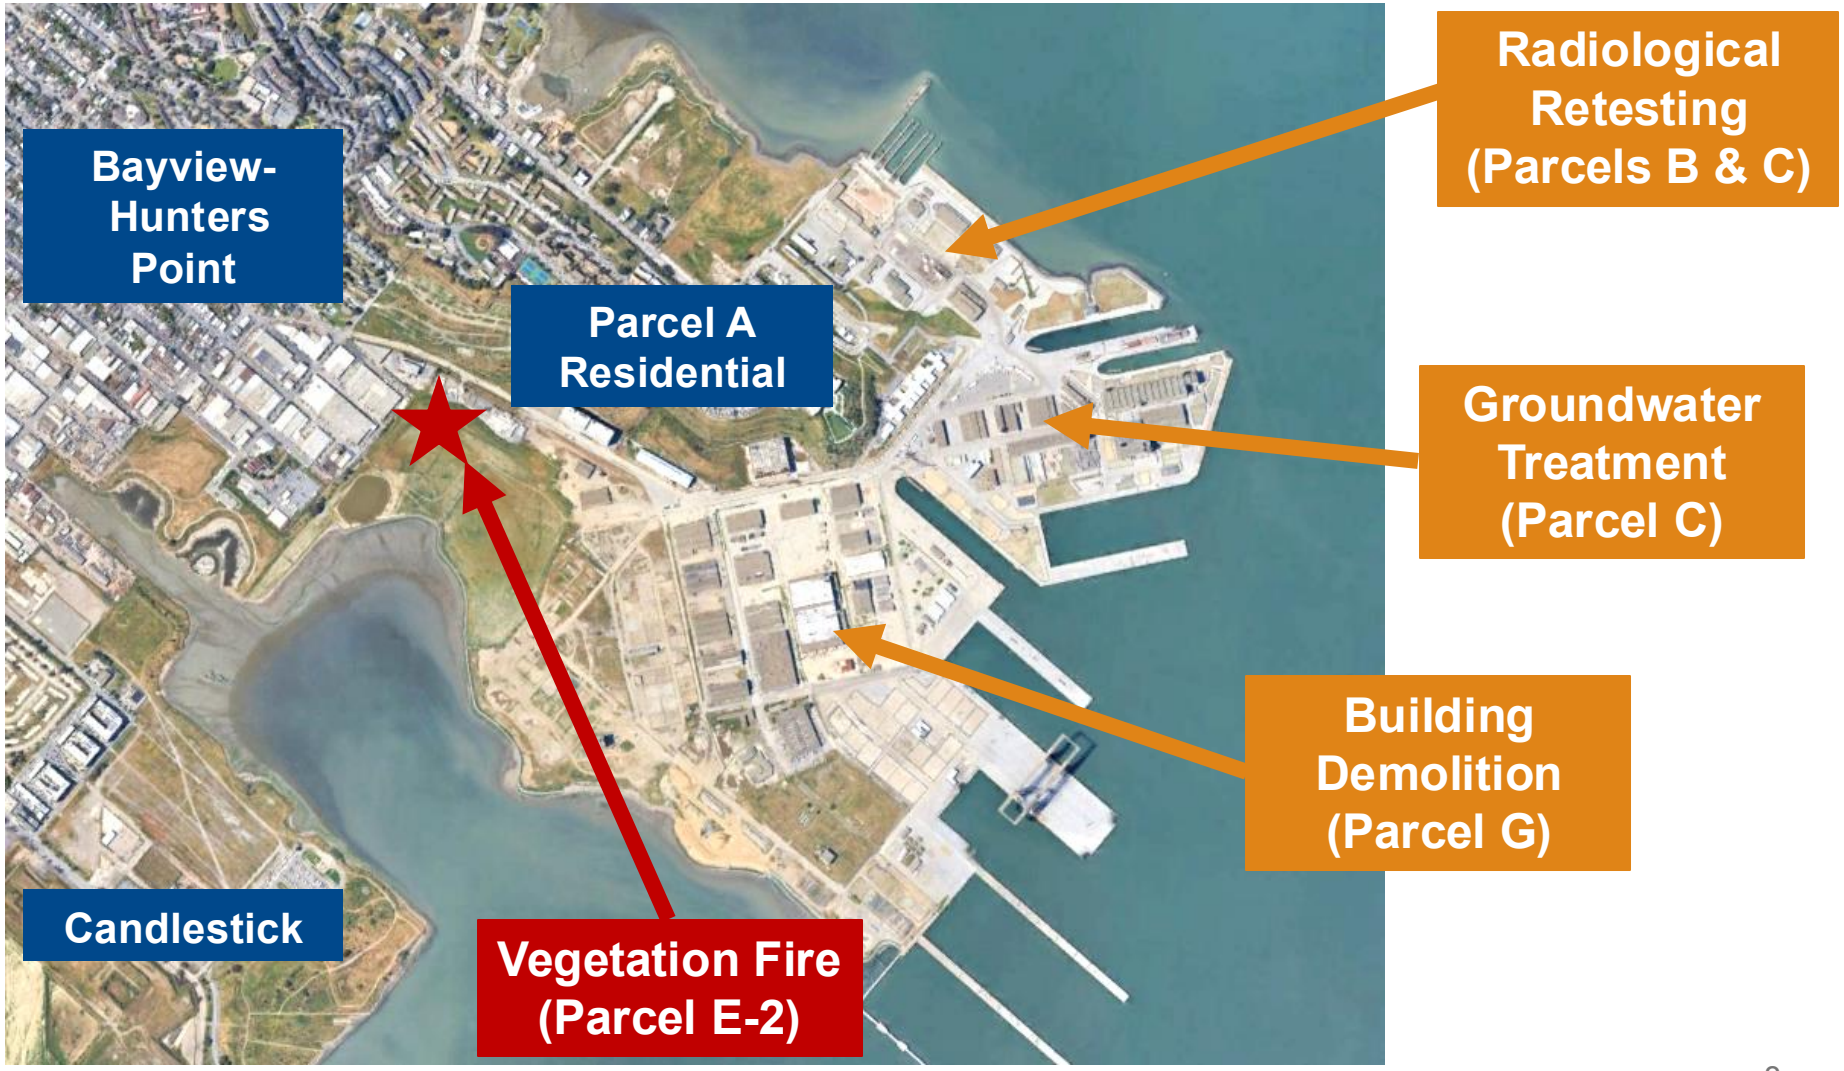

Other Agencies

San Francisco Department of Public Health (DPH), California Department of Public Health (CDPH), Bay Area Air District, and Office of Community Investment and Infrastructure (OCII).

Shipyard Activities Update: Jun-Oct 2026

KEY

- Community
- Shipyard
- Incident

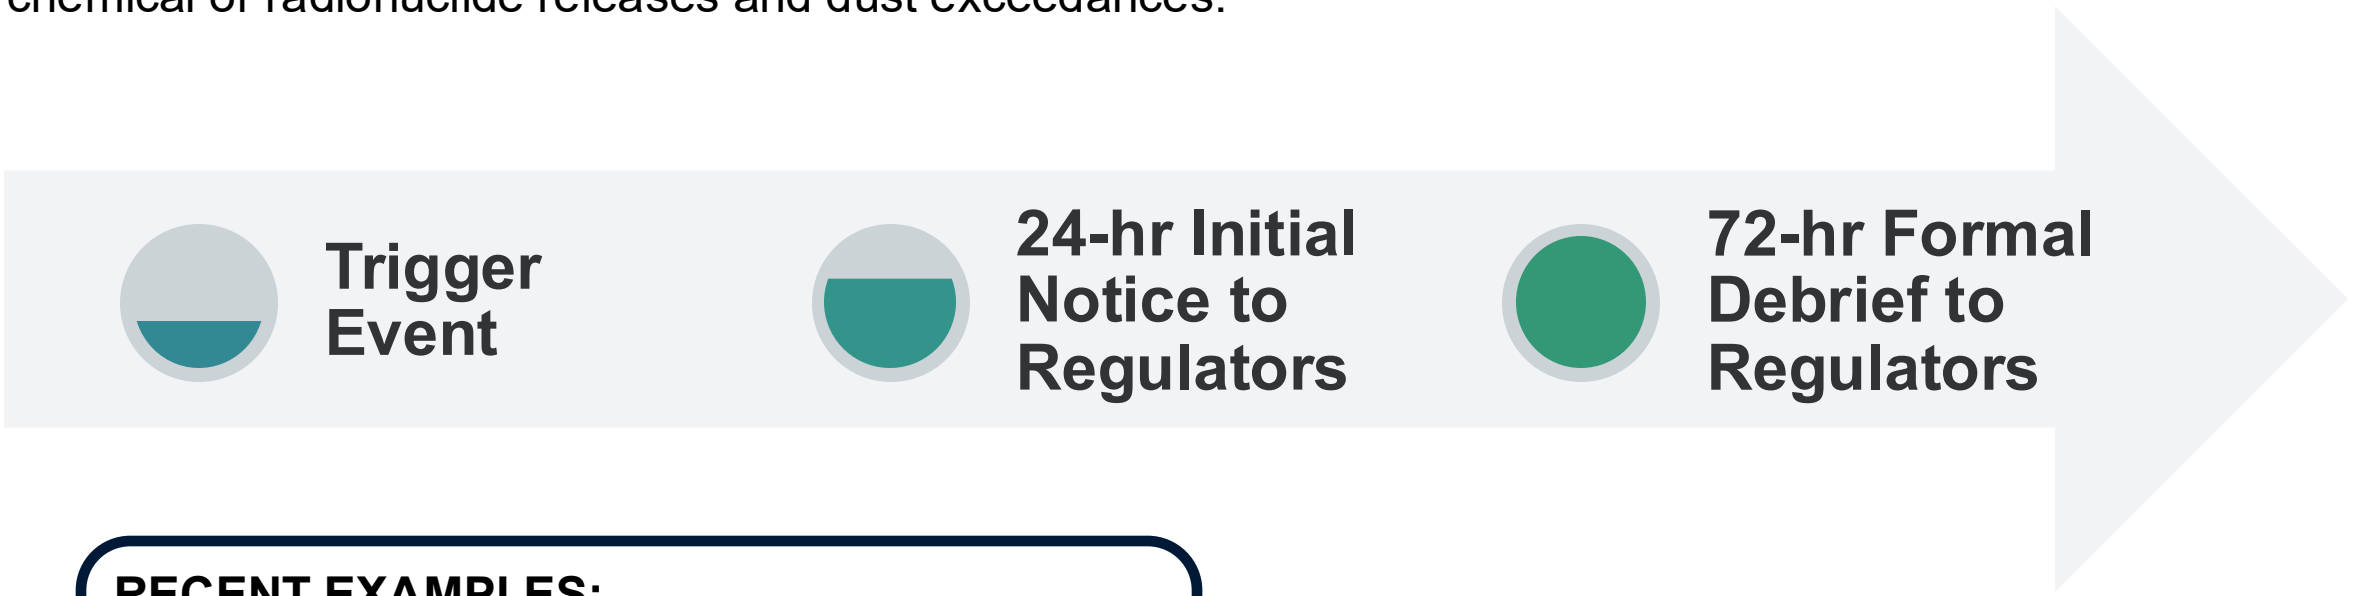

Agenda

1. Our Commitment & Team
2. Shipyard Oversight & Activities
3. Remediation & Restoration Updates
4. Promoting Health in Bayview-Hunters Point
5. Community Engagement & Outreach Initiatives

Incident Notification Protocols in Action

The Navy and regulatory agencies established Incident Notification Protocols to ensure regulators are notified promptly about specific incidents at the Shipyard, including potential chemical or radionuclide releases and dust exceedances.

RECENT EXAMPLES:

- **December 2025** – Parcel C Dock Collapse
- **July 2026** – Parcel E-2 Vegetation Fire

Vegetation Fire at Parcel E-2 Landfill

Approx. 2-3 Acres Burned
(July 23, 2026)

Incident Notification
(Per Protocol)

Community Update
(July 27, 2026)

State Agency Follow-Up
(August 4, 2026)

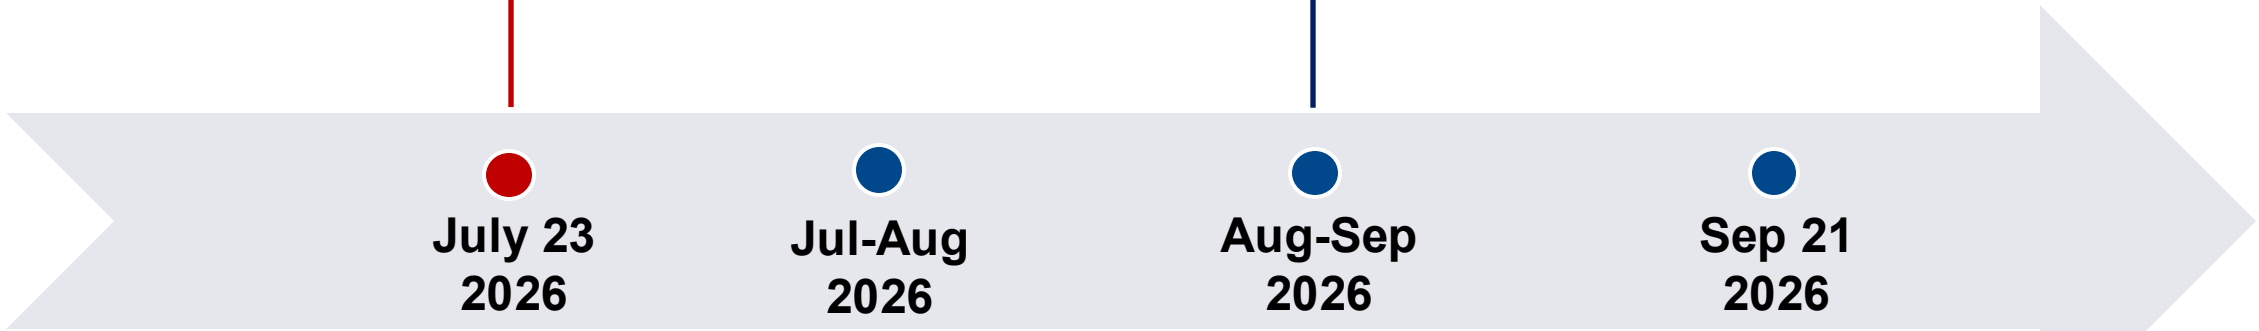

Fire Lasted 2 Hours

Vegetation Fire: Response & Follow-Up

July 23 2026

Fire Impacts

- Damaged Landfill Monitoring System and Stormwater Controls

Jul-Aug 2026

Regulatory Response

- Water Board issued inspection report & letter.
- Navy met with regulators to discuss response.
- Community updated on 7/27

Aug-Sep 2026

Navy Actions

- Navy repaired Landfill Monitoring System and damaged Stormwater Controls.

Sep 21 2026

Community Meeting

Navy presented fire incident and response actions to the Hunters Point Shipyard Citizen's Advisory Committee.

DPH Engagement

DPH continues to track the Navy's response and supports timely communication with the public.

Agenda

1. Our Commitment & Team
2. Regulatory Oversight & Roles
3. Remediation & Restoration Updates
4. **Health Promotion in Bayview-Hunters Point**
5. Community Engagement & Outreach Initiatives

What Bayview Residents Have Shared

During Shipyard-focused dialogue, Bayview residents and community advocates have called for:

- clear information on the Shipyard
- greater involvement in decisions
- enhancing and protecting indoor air quality
- continued access to trusted health services

These priorities guide DPH's work.

Our Framework for Health Promotion

DPH protects and promotes the health of San Franciscans through a wide range of services.

Upstream Prevention	Primary Prevention	Secondary Prevention	Tertiary Prevention	Medical Harm Prevention
Stop harmful exposures before they start.	Support residents to stay healthy.	Catch & treat health problems early.	Limit complications from disease and prevent permanent disability.	Protect people from misinformation and unnecessary medical care.

Examples

Supporting the Air District's clean air laws

Quit-smoking help for smoke-free homes

Asthma Screenings

Clinical care

Avoiding bacterial antibiotics in an asthma flare

Shipyard Dialogue Reflects a Neighborhood-Wide Vision for Health

Community requests mirror the wide range of prevention services DPH delivers.

Upstream Prevention	Primary Prevention	Secondary Prevention	Tertiary Prevention	Medical Harm Prevention
Stop harmful exposures before they start.	Help residents stay healthy.	Catch & treat health problems early.	Limit complications from disease and prevent permanent disability.	Protect people from misinformation and unnecessary medical care.

Residents have expressed interest in...

Anti-idling truck laws and enforcement

DPH shares how to report idling concerns.

Protecting home air quality

DPH shares tips for better indoor air quality.

Laying strong foundations for healthy futures

MCAH* supports new mayoral infant and family programs.

Trusted environmental health care

Health Network launched services at Southeast Health Center.

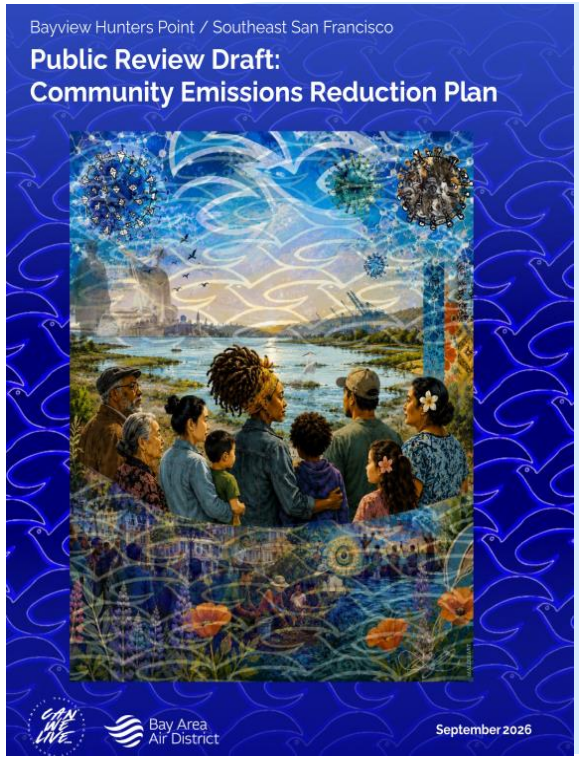

Making informed decisions on biomonitoring

DPH can share evidence-based laboratory practices.

*MCAH = Maternal, Child and Adolescent Health Office of the San Francisco Health Network

Supporting Community Advocacy

2026 Bayview-Hunters Point/Southeast San Francisco Community Emissions Reduction Plan

Public Draft Released

This community-driven draft plan focuses on 6 themes, and includes priorities to:

- Improve air quality
- Increase access to data and monitoring
- Address community health impacts

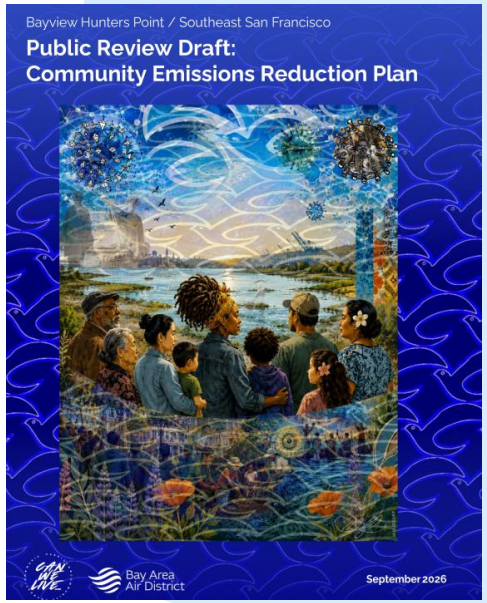

Our Ongoing Engagement

DPH staff are actively participating in community meetings to establish the **Community Emissions Reduction Plan (CERP)**, responding to community priorities and providing public health expertise.

Access the full report on www.baaqmd.gov

Public Review Draft Report

Bridging Community Advocacy to Collaborative Action

Community Voices

"Expand access to Bayview-Hunter Point/Southeast San Francisco Health Data"

- Community Health Impact
1.1, 2026 Community Emissions Reduction Plan

In development

We are **strengthening** partnerships with a **broader** network of epidemiologists to communicate updated health information on Bayview-Hunters Point.

Bridging Community Advocacy to Collaborative Action

Community Voices

"Improve signage and public notifications of exposures to chemicals [at the fence line]"

- Hunters Point Biomonitoring Foundation's Four-Point Platform for Resident and Worker Safety and Resident Protective Measures

In development

We are **collaborating** with the EPA & Navy to review the current on-site signage at the Shipyard.

Navy project managers have indicated they plan to focus on updating the signage in 2027.

Agenda

1. Our Commitment & Team
2. Regulatory Oversight & Roles
3. Remediation & Restoration Updates
4. Promoting Health in Bayview-Hunters Point
5. **Community Engagement & Outreach Initiatives**

How DPH Is Engaging Bayview Residents

451 Galvez Avenue

Shipyard Info Meetings

Citizens Advisory Committee Meeting
Recurring forum for San Franciscans to provide input on Shipyard activities

Shipyard-focused sessions
Continuing dialogue with community-based organizations from June 2026 City Hall rally

Youth-Centered Educational Initiatives

Youth-Centered Educational Initiatives

Hosting science activities to foster early learning on effective, real-world environmental cleanup principles

Raising Awareness on **Progress**

Maintaining A Central Hub

Maintain key information on SF.Gov

SF.Gov/hpns-cleanup

Community Outreach Highlight: Bayspark 2026

BaySpark is a youth environmental justice event led by the Marie Harrison Community Foundation for Social and Environmental Justice.

DPH participated for the third consecutive year to support young people in:

Developing interest and excitement about environmental health and science, technology, and engineering fields

Understanding ongoing work at the Shipyard

Exploring careers in public health and related fields
