Commissioners Streamlining Task Force,

I understand that in December the Commission Streamlining Task Force's recommendation to downgrade the Commission on the Environment to advisory status - and after 3 years to eliminate it altogether - was reviewed and a decision is still pending. This proposal is damaging to San Francisco's reputation as a climate leader, to say nothing of the actual health and safety of City residents.

Now more than ever, the world needs climate leadership from local governments - not heads in the sand. Keep the Commission and continue its work for more than three years. Thank you.

Richard Massi
