

			A: Organizational Background & Cultural Responsiveness		B: Program
Organization Name	Service Area	Total Score	Category Score	Optional Rationale	Category Score
Bay Area Community Resources (BACR)	Community Health & Wellness	94	32		13
Bay Area Community Resources (BACR)	Community Health & Wellness	73	23	The 2 programs as described do not seem like they include serving the African American community as written. I would like to have seen it written in a way where it is clear that all racial/ethnic groups may benefit from these programs if they are in need of support.	10
Bay Area Community Resources (BACR)	Community Health & Wellness	91	32	BACR demonstrates 48+ years of established track record serving 69,000+ clients annually, with 90%+ people of color Strong partnership model with SALT coalition Clear alignment with RFP goals through community empowerment approach and systemic equity focus Exceptional staff lived experience Community-led decision making through PICD Advisory Committee and grassroots organization structure Strong DEI infrastructure including dedicated DEI Manager and Justice Collective partnership. Could provide more specific metrics on leadership demographics reflecting community served Limited detail on how community voices influence BACR's broader organizational decisions beyond SALT partnership	13

	15		9		10
The purpose and objectives are clearly stated and align with the service area however, I do not find that they are described in a way that meets the needs of a diverse community. They are heavily focused on the Pacific Islander community but the RFP asks for meeting the needs of historically marginalized populations which include the Pacific Islander population but I would like to see the programs be more inclusive to other marginalized groups including the African American population.	12		8		6
Clear articulation of purpose addressing documented health disparities Comprehensive program design integrating health education, cultural fitness classes, and culminating Walk for Life event Strong cultural responsiveness using traditional dances, PI values, and peer educator model Detailed timeline with logical milestones from July recruitment through June assessment Multigenerational approach engaging youth, parents, and elders Evidence-based strategies including peer engagement, self-assessment, and active participation Adaptability mechanisms through community feedback integration		Clear, measurable deliverables Comprehensive operational plan detailing service delivery locations and methods Well-defined staffing structure with clear roles and reporting relationships Extensive partnership network including UCSF, DPH, CCSF, and 7 PI nations for dance instruction Strong risk mitigation strategies addressing health data misconceptions and colonization effects Robust staff development and onboarding processes Areas for improvement: Could provide more specific contingency plans for weather-dependent outdoor activities Limited detail on quality assurance mechanisms for workshop content consistency		Budget totals match requested amount (\$343,928) Reasonable personnel allocation with appropriate FTE levels Detailed budget narrative justifying all major cost categories Strong leveraging of in-kind contributions from multiple city partners Limited justification for \$10,000 Walk for Life event costs - could provide more detailed breakdown Indirect rate at 10% seems low for comprehensive administrative support needs Could better explain how \$4,800 annual food costs will adequately serve participants	9
Could strengthen explanation of how program will be adapted for different PI ethnic groups beyond language translation Limited detail on accommodations for varying fitness levels and health conditions.	15

	10		5 Points
While the outreach plan is comprehensive it does not seem like it will reach a diverse community and that attempts to reach communities outside of the Pacific Islander Community will be made.	9		5 Points
Multi-channel approach leveraging 60+ years of combined SALT member experience Culturally appropriate outreach through faith organizations, schools, and community institutions Multilingual materials in Sāmoan, Tongan, and Fijian languages Strong accessibility considerations including ADA compliance, public transit access, and disability accommodations Social media strategy that has achieved national/international attention Young adult ambassador program providing peer outreach Strategic timing (after work hours, weekends) for working families	Results-Based Accountability framework with clear three-dimensional approach UCSF Research Lab partnership providing dedicated research capacity and credibility Mixed-methods approach combining quantitative tracking with qualitative Talanoa circles Baseline data collection with scheduled interval measurements Strong transparency mechanisms including regular town halls and community feedback integration Established reporting infrastructure through BACR's contracts department and Salesforce database Continuous quality improvement processes with regular stakeholder review		
Could specify strategies for reaching PI community members who may be disconnected from traditional community institutions	9 Could specify timeline intervals for data collection beyond "scheduled intervals"		5 Points
