<p>ABD focuses its program design and implementation on a foundation of community-care and inclusion for the Tenderloin and its visibility. The milestones and timeline could be use time for alignment and synthesizing for clarity and strategy (with an eye on stability). There are many ambitious plans that need to be met with operational detail and support.</p>	15		<p>Line 4 of Attachment II indicates 1.0 FTE at \$65,000 but in description it states that it is for 3 Staff members. In the Budget Narratives it states that the \$65,000 is split between three (3) staff members at \$10,833 each for 2 years totaling \$65,000.</p> <p>Should be listed as .165 FTE at a unit increment of 6 (3 staff over 2 years)</p> <p>Source "Line 4: Program Staff Salary supporting 3 program staff (Joel Yates, Shavonne Allen, Sarah Crowell) producing community-engaged performances for 2 years; 1 FTE, \$65,000; supporting \$10,833 of each of their 3 salaries each 5 year for 2 years."</p>		10
		<p>ABD outlines ambitious Programmatic Objectives and Impacts for their program design and implantation. The work plan for achieving the programmatic ambitions needs more depth and clarity around how the organization will build more financial and operational stability to achieve the objectives outlined to reach the impact intended. Especially in a critical period of leadership (founder!) transition, there needs to be as much clarity and detail in the administration/operations plan as there is in the artistic programming and also build the financial capital to meet the personnel targets mentioned -especially around</p>		<p>Rationale and intention are clear. However, ABD should review the CA minimum threshold for FTE salaries as well as industry standards for hourly pay for teaching artist fees. As a stated outcome of compensating at a 'living wage', it's important to drive the level of compensation while balancing</p>	10

Mentioned a very detailed accessibility plan including considerations for sign language and braille printing.				
Requiring our host organizations/ facilities be ADA-compliant Providing meals and refreshments for each performance and rehearsal Providing ASL interpretation, audio descriptions, haptic tours in each performance cycle Add closed captions for videos published online Engaging in multilingual outreach activities, including printing braille programs		Would love to see more details on quantitative fields, especially around if programming helps individuals participating as an artist or as an audience/community member. I.e. "did this performance/workshop speak to a lived 6 experience?"	5 Points	
ABD exemplifies how to work with local community partners for outreach and engagement. Based on the narrative, it is clear that applicant has deep and steady partnerships with other service providers and CBOs in TL, strengthening their outreach efforts.		ABD explains their use of survey but it still clear what performance metrics they are using or seeking to measure. The mechanisms for data collection are in 9 place, per their narrative.	5 Points	Strong, community-based support.
