Artist Biography (Please provide a short biography about yourself and your craft):

I am a San Francisco-based illustrator with a career shaped by decades of artistic exploration. Originally from Colorado, I have developed a distinctive style that combines precision, dynamic composition, and a strong sense of narrative energy. My work spans character-driven illustrations, original compositions, and commissioned projects, demonstrating both versatility and a consistent visual identity.

1. Describe the items you plan to sell and how each type of item is made. Please be as detailed as possible. Example: I plan to sell digital photographic prints of artwork that I designed in Illustrator and printed on cardstock using a home printer.

I plan to sell originals and prints of my artwork. I do graffiti style lettering, filagree designs and chibi versions of comic book characters. All done on paper in ink, paint and or marker.

2. Where did you learn your craft? Did you take a class or learn on your own?

I took art classes in a high school but have always been a natural artist and have learned a lot on my own.

Please provide up to two (2) images of your craft in process. The images should include you demonstrating your process. See an example here
