## Art Vendor Information

## Contact Information

A 10x2 grid of horizontal bars. The left column contains 10 bars of varying lengths, and the right column contains 10 bars of varying lengths. The bars are black on a white background.

The Art Vendor Advisory Committee will only screen two crafts per meeting. If you want to screen for additional crafts, you will need to complete a new application after you have been approved for two. How many crafts are you applying for? Example: Beaded jewelry and watercolor paintings on canvas are two crafts.

I am applying for two crafts

ceramic pendants and ceramic bowls are one craft (Ceramic items)

Please list your two craft items to be screened: **designer hats and paintings**

Are you a current art vendor adding an additional craft?

**No**

A family unit is two (2) or more persons jointly engaged in the creation of an art or craft item.

Is this an application for a Family Unit?

**No**

Artist Biography (Please provide a short biography about yourself and your craft):

**Ilgaz Kuren** is a multidisciplinary artist based in San Francisco, working at the intersection of painting, wearable art, and storytelling. Her journey began with acrylics, oils, and mixed media on canvas, yet over time her practice expanded into sculptural hat design, transforming headwear into luminous expressions of identity. Each Qreine Hats piece carries her signature blend of intuition, color, and psychological depth, echoing her belief that art is a mirror of the soul. Her background in philosophy, psychology, and filmmaking shapes her creative language. She approaches every work as an inquiry into perception, memory, and human connection. After her first transformative experience at Burning Man, she began painting hats for friends with leftover materials. The pieces caught unexpected attention on the Playa and beyond. What began as a spontaneous act of creation evolved into a flourishing artistic path supported by community appreciation. Her paintings maintain the same ethos as her wearable art. Both

1. Describe the items you plan to sell and how each type of item is made. Please be as detailed as possible. Example: I plan to sell digital photographic prints of artwork that I designed in Illustrator and printed on cardstock using a home printer.

I plan to sell original hand-painted hats and fine art paintings, each created through a meticulous, fully handmade process. My work blends acrylic, oil, and mixed media techniques with sculptural elements and contemporary color theory. Hand-Painted Hats: Every hat begins as an unadorned felt or straw base sourced from raw, undecorated suppliers. I prime the surface when necessary, then design unique compositions directly onto the hat using acrylic paint, fabric-safe mediums, and UV-reactive pigments. Depending on the concept, I incorporate sculptural elements such as wax seals, metal chains, stitched patterns, neon accents, abstract symbols, or LED light components. Each piece is built layer by layer, allowing paint to cure before adding detail work using fine brushes, palette knives, or custom tools. Some hats include hand-applied sealants or varnish for durability. No two designs are ever duplicated; every hat is a one-of-a-kind wearable artwork. Paintings: My paintings are created on canvas or wood pane

2. Where did you learn your craft? Did you take a class or learn on your own?

**On my own.**

Please provide up to two (2) images of your craft in process. The images should include you demonstrating your process. See an example here

**D279FDA4-67A8-47D6-AA4B-CCD051B2BFCB.JPG**

Please provide up to two (2) images of your finalized craft. The images should show examples of what you plan to sell. See an example here

**1863B4B6-AE26-48FA-8B23-44F94463E0ED.JPG**

Please provide an image of your workspace that includes the equipment and materials used in your craft. See an example here.

**WhatsApp Image 2025-05-30 at 10.54.11.jpg**

Additionally, artists may upload a video (up to five minutes) of their process. See an example video here.

*No answer given*

4. Is your craft considered an American Indian or Alaskan Native style, traditional or contemporary, arts and crafts? Do you identify as a member of the community that practices this cultural tradition? Are you compliant with The Indian Arts and Crafts Act of 1990?

**no**

5. What makes your work different from other artists and craftspeople making similar items?

**My work is unique because I merge fine art techniques with wearable sculpture, using materials and methods rarely combined in traditional hat-making or painting. Each piece is a one-of-a-kind artwork created with acrylic paint, felt bases, mixed media textures, UV-reactive pigments, neon accents, LED lights, custom stitching, metal chains, wax seals, and hand-built sculptural elements. This blend of painting, design, and light-based craft transforms every item into a multidimensional art piece rather than a simple accessory or canvas. I work in layers, treating each hat and painting as an emotional landscape. Acrylic strokes, symbolic linework, and tactile textures meet contemporary rave aesthetics, psychological motifs, and abstract storytelling. Because I am both a painter and a filmmaker, every piece carries a narrative intention – it expresses identity, mood, and inner world rather than following a trend or repeating a style. My use of light is another defining feature. LED components, glow-in-the-dark**

(Optional) Please provide an artist CV or Résumé:

*No answer given*

(Optional) Please provide any Letters of Recommendation from other markets or studios you may have:

*No answer given*

6. What artist or business name are you operating under?

**Qreine**

7. Do you have a website, Etsy, Instagram or any other publicly accessible online store or social media account?

**Yes**

If Yes, please provide links to your public sites: <https://qreine.etsy.com>

(Optional) Please upload your logo or signage. **DIIBFv7K.png**

(Optional) Please upload your image of display *No answer given*

8. Does your artwork comply with all federal, state, and local laws and ordinance, including, if necessary, lawful authority to use logos or other images protected by Copyright or Trademark laws?

Yes

9. Are you using any sports or company logos such as SF Giants or other recognizable branding that is not your own?

No

10. How are you ensuring customers can tell a difference between your work and commercial or mass-produced items?

**Customers can immediately see that my work is entirely handmade and not commercially produced. Each hat and painting is created as a one-of-a-kind piece with no duplicates, templates, or manufactured patterns. My process is slow, layered, and intentionally imperfect in ways that mass-produced items can't replicate. Every hat begins as a plain felt or straw base and is transformed through hand-painted acrylic work, mixed media textures, neon accents, LED components, stitching, wax seals, metal details, and sculptural elements I build myself. Because each brushstroke, symbol, and texture is individually created, no two pieces ever look alike. Commercial factories cannot reproduce this level of variation, emotional depth, or artistic signature. I also incorporate unique color blending, intuitive linework, UV-reactive pigments, and personal motifs drawn from psychology, philosophy, and rave culture. These elements create visible artistic identity – not factory uniformity. My paintings follow the same handmade**

11. What steps have you taken to ensure that you are not violating any copyright or other laws?

**I take multiple steps to ensure that all of my work is original and fully compliant with copyright and legal standards. Every design, painting, symbol, pattern, and sculptural element I create comes directly from my own artistic practice. I never copy, trace, or reproduce existing artwork, commercial graphics, or protected imagery. All compositions are developed from my sketches, color studies, and intuitive mixed-media process. I source my base materials legally from reputable suppliers, and I only use elements that are safe, unbranded, and free of protected logos or trademarks. When incorporating components such as LED lights, chains, or wax seals, I ensure they are generic materials, not copyrighted or trademarked decorative items. Additionally, I do not use AI-generated imagery or external illustrations in my physical artworks. Everything is painted, sculpted, or built by hand, allowing me to maintain full authorship over the creative content. I also stay informed about intellectual property laws, espe**

12. REQUIRED Please upload recent receipts for any tools and materials. Receipts must be for the same tools and materials used to create the items in the work samples you provide. Receipts must show that the materials were shipped to you/your address. See an example here. Optionally, you can upload images of your workspace. The image of your workspace must include the equipment and materials used in your craft. Receipts and/or images of your materials used in the production of your craft are required for

**Screenshot 2025-10-07 at 9.39.20AM.png**

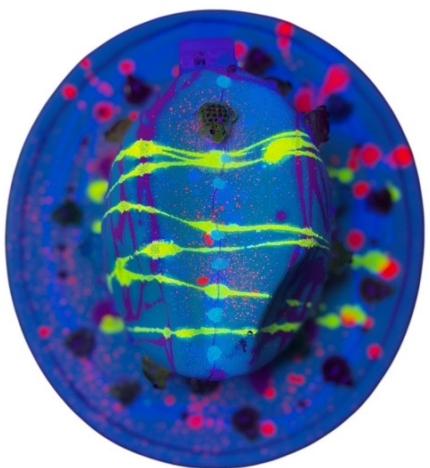

approval. You will not receive a license until you have provided this information.

13. If you are unable to provide a copy of your receipt, please provide the reason you are unable to do so

**I will send things with e mail, because they hold so much space here to send.**

14. Describe the safety procedures you use in your craft. What, if any, safety equipment do you use? How do you store and handle any toxic or hazardous material?

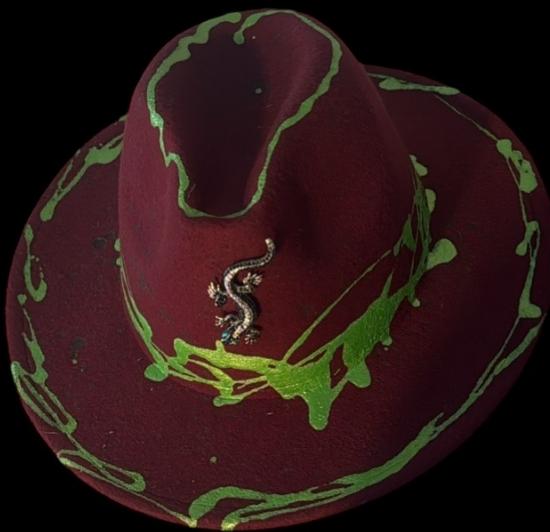

**I follow careful safety procedures to protect both myself and my workspace while creating hand-painted hats and mixed-media paintings. I work primarily with acrylics, fabric-safe mediums, varnishes, sealants, and UV-reactive pigments, all of which I handle with proper ventilation. My studio is equipped with circulating airflow and an air purifier to reduce fumes and maintain clean air while working. When using adhesives, varnishes, or any material with mild fumes, I wear protective gloves and, when needed, a lightweight mask to avoid inhalation. I also use goggles during sanding, drilling, or attaching sculptural elements such as chains or LED components. All paints, sealants, glues, and solvents are stored in clearly labeled, airtight containers inside a dedicated cabinet. I keep all materials out of direct sunlight and away from heat sources to prevent chemical degradation. Hazardous or semi-hazardous items, such as sealants or alcohol-based cleaners, are kept on a higher shelf and handled only during well-ventilated tasks.**
