Core Initiative Information

This lease or contract is a "Core Initiative Lease" or a "Core Initiative Contract" per Administrative Code Section 21B.2 because it is a "Project Addressing _____":

- ☐ **Homelessness**, defined as "projects designed to prevent homelessness through the provision of housing subsidies or other services, and projects designed to provide shelter, housing, food, and/or social services to people experiencing homelessness."
- ☒ **Drug Overdoses and Substance Use Disorders**, defined as "projects designed to reduce drug-related deaths and support individuals with substance use disorders (SUDs)."
- ☒ **Mental Health Needs**, defined as "projects designed to support people with mental health disorders."
- ☐ **Integrated Health Needs**, defined as "projects designed to serve people who are at risk of experiencing homelessness due to the potential loss of their shelter, housing, or release from an institution."
- ☐ **Public Safety Hiring**, defined as "projects to support the hiring process for, and/or the recruitment, training, and retention of, police officers, deputy sheriffs, and 911 operators."

Describe why the contract or lease is necessary to support the Core Initiative(s) selected above:
It is critical to the City to reduce overdose deaths, and the proposed model is a proven and effective model to engage individuals in a targeted neighborhood.

Advance written justification to Mayor and Board of Supervisors

IMPORTANT: This submission is a replacement of the initially submitted form on December 1, 2025 to Aly Bonde. This form reflects the higher estimated amount of the contract.

Department & Agreement Information (*required)

Department Name*: Department of Public Health
Agreement Type*: Contract
Department Contact Name*: Michelle Ruggels
Department Contact Phone #*: (628) 271-7549
Department Contact Email*: michelle.ruggels@sfdph.org

For Contracts, Requisitions, and Purchase Orders:

Contract PeopleSoft ID#: 1000037430
Anticipated Contract Amount: $1,445,920.00
Anticipated Contract Start Date: 1/1/2026
Anticipated Contract: 12/31/2030
Supplier ID: 0000059697
Supplier Name: CHESS Health

Provide details about the anticipated agreement*: CHESS Health will provide DPH with a Contingency Management Rewards Engine SAAS Software. This CM Rewards Engine is intended to reward participants for drug abstinence. The CM Rewards Engine will track participant urinalysis results and other desirable behaviors, provide incentive management (instant disbursement and automated auditing), integrate directly with EHR/EPIC, provide flexible incentive options (e.g.-physical and digital gift cards, reloadable debit cards), and provide real-time patient-level data availability and instant reporting). The Contingency Management Rewards Engine aligns with the Mayoral initiative to address drug overdoses and substance use disorders.

Core Initiative Information

This contract is a "Core Initiative Contract" per Administrative Code Section 21B.2 because it is a "Project Addressing Drug Overdoses and Substance Use Disorders":

- ☐ **Homelessness**, defined as "projects designed to prevent homelessness through the provision of housing subsidies or other services, and projects designed to provide shelter, housing, food, and/or social services to people experiencing homelessness."
- ☒ **Drug Overdoses and Substance Use Disorders**, defined as "projects designed to reduce drug-related deaths and support individuals with substance use disorders (SUDs)."
- ☐ **Mental Health Needs**, defined as "projects designed to support people with mental health disorders."
- ☐ **Integrated Health Needs**, defined as "projects designed to serve people who are at risk of experiencing homelessness due to the potential loss of their shelter, housing, or release from an institution."
- ☐ **Public Safety Hiring**, defined as "projects to support the hiring process for, and/or the recruitment, training, and retention of, police officers, deputy sheriffs, and 911 operators."

Describe why the contract or lease is necessary to support the Core Initiative(s) selected above:
San Francisco has approximately 12 active Contingency Management (CM) programs that need instant disbursement for specified desired health behaviors. These programs have high administrative burdens and the ability to quickly manage and disburse incentives is a common barrier. Data availability is an ongoing issue for Contingency Management (CM) programs and their funders. Funders of CM programs access program-level and participant-level data to monitor CM programs and ensure adherence to CM requirements and compliance with funder expectations. This monitoring data provides a continuous record of incentive distribution for simple compliance checks and auditing. Acquiring a software specifically developed for CM, for use across various city programs, would allow programs to better adhere to CM principles and allow the San Francisco Department of Public Health (SFDPH) to access patient-level data in real time. CHESS Health will be able to export information to EPIC to indicate that patients who already have existing records in EPIC are enrolled in a CM treatment program. CHESS Health will not have access to EPIC patient data records. The patient data entered into the

Docusign Envelope ID: 79784076-3A46-4E7F-8ED4-2F347BFE2006

CHESS Health Rewards Engine will be “pushed” or exported into a participant’s chart in EPIC to indicate that the individual is enrolled in Contingency Management treatment. CHESS Health’s reward engine for contingency management will allow the City to work towards reducing drug-related deaths and support individuals with substance use disorders (SUDs).
