Agenda Item 5

DBI Proposed Budget and Fees FY 2026-27 / 2027-28

Building Inspection Commission – January 21, 2026

DBI Budget Planning

DBI is an enterprise department funded primarily by fees for services.

In 2024, we completed a fee study documenting that:

- San Francisco building permit fees were substantially less than comparable cities and counties.
- DBI was not achieving full cost recovery resulting in an operating deficit.

DBI uses a model to understand the cost of our services and the productivity of staff to ensure that our rates are appropriate and that we are adequately staffed to meet our service level agreements.

DBI Budget Planning

Each year City departments are required to provide a budget proposal covering the following two years. The Mayor's Office and Board of Supervisors will continue to make budget adjustments throughout the process.

Mayor Lurie instructed all city departments to departments make ongoing, permanent spending reductions totaling \$400 million starting in FY26-27. There are no department-specific instructions yet.

DBI Budget Planning

Our budget proposal has three primary goals:

1. Recover costs to ensure we have enough staffing to meet our service level and compliance obligations.
2. Facilitate the merging of DBI, Planning and the Permit Center.
3. Support the new permit system.

The Commission's role is to evaluate DBI's proposed budget and vote on whether to recommend adoption to the Board of Supervisors. We are required to submit our budget proposal and your recommendation by February 21.

This process will continue through the summer.

Financial History & Forecast

| Time | Financial Condition | Demand for Permits | Revenue | Reserves |
|---------------|---------------------|--------------------|---|--|
| Pre Pandemic | Strong | High | Covers operational costs | Reserves well-funded |
| Pandemic | Weakened | Low | No longer covers costs | Used to fill large budget gaps |
| Post Pandemic | Vulnerable | Increasing | On track for full cost recovery in FY27 | Plan and timeline to stop using for operations |

Changes To DBI's Budget

| Changes Reflected in the Current Budget Proposal | Additional Upcoming Changes to the Budget Proposal |
|--|---|
| Updated fees based on fee study recommendations | Work order changes from other city departments |
| Technical changes – employee premiums, reassignments, etc. | First phase of the department merge, moving MIS to Planning |
| Department initiatives | Policy changes by the mayor or Board of Supervisors |

DBI FY26-27/27-28 Budget Proposal Overview

Strategy & Tactics

Strategy - Generate sufficient revenue to fund staffing levels capable of meeting our service level and compliance program obligations.

Tactic - Implement the third and fourth of four incremental fee increases to adequately fund operations.

Outcomes

1. Produce an additional \$3.1M in operating funds this year.
2. Eliminate dependence on reserve funds for operations costs.

Fees Overview

This budget is the fourth of DBI's phased fee adjustments that will return the department to full cost recovery.

The final year of fee restructuring will occur in FY26-27. After that, DBI anticipates making annual adjustments to keep pace with inflation.
