State Bills

Assembly Bill 253 (Ward) - This bill requires that, upon receipt of a completed application for a new residential project, or renovation or remodel of an existing project, with 1-10 units with no floors for human occupancy 40 feet above ground, that a building department provide an estimated timeframe for plan review. If the estimated timeframe exceeds 30 days, **the applicant may contract with a private professional provider to check the plans and specification**, at the applicant's cost. The private plan checker must submit an affidavit to the Department. Within 14 days of receiving this report and affidavit, the department must approve the permit, or provide information to correct deficiencies. If, after receiving a report, the building department does not respond within 14 days, the application will be deemed approved.

Status: The bill has been passed through the Assembly and Senate Local Government committee. The bill is pending a hearing in the Senate Housing Committee.

State Bills

Assembly Bill 1206 (Harabedian) - This bill would require a city, by 1/1/26, to develop a program for the **preapproval of single- and multi-family residential housing plans**. If an applicant uses a pre-approved plan, the application must be approved or denied within 30 days.

Status: The bill has been passed by the Assembly and the Senate Local Government committee. It is pending a hearing in the Senate Housing committee.

Status of AB 306/AB 130

Assembly Bill (AB) 306 was recently folded into AB 130, a budget trailer bill specific to housing policy.

AB 130 was signed by the Governor on June 30, 2025, and took effect immediately upon signature.

Major Provisions of AB 306/AB 130

The law prohibits the California Building Standards Commission (CBSC) from **October 1, 2025, until June 1, 2031**, from considering, approving, or adopting any proposed building standards **affecting residential units** unless:

- Changes are emergency standards to protect health and safety, or emergency updates to model codes
- Standards relate to home hardening and are proposed by State Fire Marshal
- Standards related to single stair buildings
- Standards relate to ongoing state working groups related to adaptive reuse or water conservation in buildings
- Standards take effect on Jan. 1, 2032 or later

Major Provisions of AB 306/AB 130

The law prohibits local jurisdictions, from **Oct. 1, 2025 to June 1, 2031**, from making any changes to building standards **applicable to residential units**, unless:

- Changes are substantially similar to those filed by Sept. 30, 2025
- Commission deems changes necessary as emergency standards
- Changes are related to home hardening
- Changes align with a general plan approved on or before June 10 2025 that permits mixed-fuel residential construction while also incentivizing all-electric construction

Notable Amendments of AB 306/AB 130

The law exempts specific actions **related to administrative practices**, that are proposed for adoption **during the intervening period**, and exclusively result in any of the following:

- Reductions in time for a local agency to issue a postentitlement permit
- Alterations to a local agency's postentitlement fee schedule
- Modernization of, or adoption of, new permitting platforms and software utilized by the local agency
- Reductions in cost of internal operation for a local agency
- Establishment, alteration, or removal of local programs related to enforcement of building code violations or complaints alleging building code violations

Impact on PermitSF & Code Streamlining

The majority of the changes considered by PermitSF and the Code Streamlining Committee **are not actual building standards**, and are instead administrative changes largely placed in Chapter 1A of the San Francisco Building Code.

These types of changes either **are not covered by AB 306, or would be exempted** given the amendments on the prior slide.
