133 individuals on 7/15/22, includes 19 in ICU

Total COVID-19 patients in acute care and intensive care

Remaining Hospital Capacity

ICU	36%
Acute Care	17.7%

Vaccine Administration

	Underlying Population	At Least One Dose	% of Population At Least 1 Dose	Vaccination Completed	% of Population Vax Completed	Residents Boosted	% of Vax Residents Boosted
All Residents	874,787	809,042	92%	738,518	84%	550,028	74%
Residents 5+	835,137	801,673	>90%	738,501	88%	550,028	74%
Residents 12+	791,131	766,366	>90%	705,276	89%	540,231	77%
Residents 65+	135,027	137,514	>90%	130,433	>90%	116,399	89%
Residents 75+	60,907	56,262	>90%	53,412	88%	48,368	91%

5-11 yrs: 82% at least one dose; 76% completed initial series

0-4 yrs: 18% at least one dose

Booster Recipients by Age

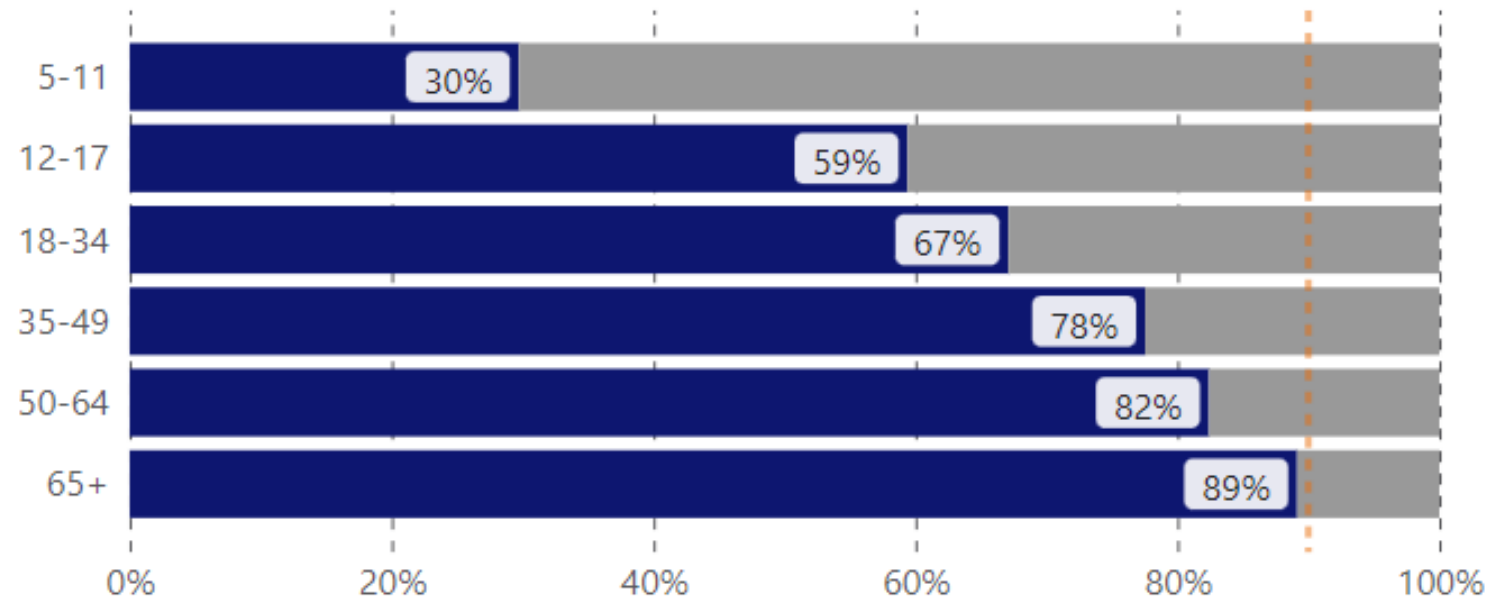

All residents with a vaccine booster

550,311

Vaccinated residents all ages with a booster dose

75%

Estimated percent of vaccinated residents who have received a vaccine booster, by age

Summary

- The SF COVID case rate and number of total hospitalizations have increased
 - More infectious variants fueling rise
 - Hospitalization capacity remains adequate

Bay Area Health Officers stress the importance of taking safety precautions as the region experiences an increase in COVID cases:

- Keep masks handy with well-fitted N95/KN95s/KF94s). ***Bay Area Health Officers urge the use of high-quality masks indoors.***
- Keep a supply of rapid test kits on hand.
- ***Stay up to date on your vaccinations*** – including the primary series and boosters, when eligible.
- Plan ahead for a possible infection. You may need an isolation plan, a child-care plan, or a work plan.
- Know how to reach a doctor. ***Ask your provider now about antiviral treatment*** if you were to test positive and are at risk for severe illness.
- Stay informed with trusted sources of information, such as: [SF.gov/covid](https://sf.gov/covid)
