**Subject** Issue Citations for Public Illicit Drug Use

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Charles Farrugia

**Mandate Public Safety: Issue Citations for Public Illicit Drug Use**

Name	Alison Gardner
Email	agardner331@comcast.net
Subject	Issue Citations for Public Illicit Drug Use

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Subject	Issue Citations for Public Illicit Drug Use

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

[Note: edit subject line to "Jail Time for Public Illicit Drug Use"]

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

I believe, in general, San Francisco should end policies which attract degenerates and drug addicts to our city, and focus instead on providing a quality living environment for our responsible, law-abiding residents who lead productive lives. It is so galling to work hard in a difficult environment, and pay exorbitant taxes, only to see your government actively encourage and sponsor derelicts to ruin life for the rest of us.

Specifically, I believe supervisor Sherrill's resolution, which urges the San Francisco Police Department to pursue a plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step in the right direction, and I urge you to support this effort.

And as you know, citations are useless -- an effective response means jail time. Jails are a cheap and effective deterrent to crime.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Michael Nulty

Subject	Issue Citations for Public Illicit Drug Use

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

I live at Gough and Geary - we have repeated drug users passing out in the bushes between and bordering properties between Starr King, Gough, Franklin and Ellis. High schoolers walk these sidewalks every day, as well as the many seniors living in the neighborhood. Last week their leashless dogs were running around the dog run next to Saint Mark's, then threatened our doorman when he asked them to get out of our gardens. Until recently they did drugs and passed out feet from kids in the playground at the Montessori Nursery School, seemingly with impunity.

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Subject	Issue Citations for Public Illicit Drug Use

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

**Mandate Public Safety: Issue Citations for Public Illicit Drug Use**

Name	Christine Peterson
Email	christinepeterson194@gmail.com
Subject	Issue Citations for Public Illicit Drug Use

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Message to the Board of Supervisors, Police Commissioners, Heather Renschler, and Chief Daniel Hahn:

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies, but instead directs the City to use the legal tools already available - to issue citations, conduct on-

site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.
