# Booster Recipients by Age

All residents with a vaccine booster

**553,655**

Percent of residents all ages with a booster dose

**63%**

Estimated percent of residents who have received a vaccine booster, by age

# Summary

- Indication of SF COVID case rate stabilization.
  - Hospitalization capacity remains adequate.
- Additional boosters likely to be recommended this fall.
- Bay Area Health Officers stress the importance of taking safety precautions as the region experiences an increase in COVID cases:
  - Keep masks handy with well-fitted N95/KN95s/KF94s). ***Bay Area Health Officers urge the use of high-quality masks indoors.***
  - Keep a supply of rapid test kits on hand.
  - ***Stay up to date on your vaccinations*** – including the primary series and boosters, when eligible.
  - Plan ahead for a possible infection. You may need an isolation plan, a child-care plan, or a work plan.
  - Know how to reach a doctor. ***Ask your provider now about antiviral treatment*** if you were to test positive and are at risk for severe illness.
  - Stay informed with trusted sources of information, such as: [SF.gov/covid](https://sf.gov/covid)
