

BOARD OF APPEALS, CITY & COUNTY OF SAN FRANCISCO

Appeal of
MIKI CRISTERNA and ART CRISTERNA,)
Appellant(s))
vs.)
DEPARTMENT OF BUILDING INSPECTION,)
PLANNING DEPARTMENT APPROVAL Respondent)

Appeal No. **24-032**

NOTICE OF APPEAL

NOTICE IS HEREBY GIVEN THAT on April 25, 2024, the above named appellant(s) filed an appeal with the Board of Appeals of the City and County of San Francisco from the decision or order of the above named department(s), commission, or officer.

The substance or effect of the decision or order appealed from is the ISSUANCE on April 16, 2024 to Beth Miles, of an Alteration Permit (remove one existing exterior door, remove one existing interior door; infill openings to match existing; install one new exterior front garage single light door; install one new 4" x 6" pocket door, interior; install one new 2" x 6" swing door; interior New 6 foot fence in rear yard) at 670 Shotwell Street.

APPLICATION NO. 2024/04/09/9596

FOR HEARING ON June 26, 2024

Address of Appellant(s):

Address of Other Parties:

Miki Cristerna and Art Cristerna, Appellant(s)

Date Filed: April 25, 2024

**CITY & COUNTY OF SAN FRANCISCO
BOARD OF APPEALS**

PRELIMINARY STATEMENT FOR APPEAL NO. 24-032

I / We, **Miki Cristerna and Art Cristerna**, hereby appeal the following departmental action: **ISSUANCE of Alteration Permit No. 2024/04/09/9596** by the **Department of Building Inspection** which was issued or became effective on: **April 16, 2024**, to: **Beth Miles**, for the property located at: **670 Shotwell Street**.

BRIEFING

Appellants' Brief is due on or before: 4:30 p.m. on **May 23, 2024, (no later than three Thursdays prior to the hearing date)**. The brief may be up to 12 pages in length with unlimited exhibits. It shall be double-spaced with a minimum 12-point font. An electronic copy shall be emailed to: boardofappeals@sfgov.org, julie.rosenberg@sfgov.org, corey.teague@sfgov.org, tina.tam@sfgov.org, matthew.greene@sfgov.org, kevin.birmingham@sfgov.org and beth@bethmiles.com

Respondent's and Other Parties' Briefs are due on or before: 4:30 p.m. on **June 6, 2024, (no later than one Thursday prior to hearing date)**. The brief may be up to 12 pages in length with unlimited exhibits. It shall be doubled-spaced with a minimum 12-point font. An electronic copy shall be emailed to: boardofappeals@sfgov.org, julie.rosenberg@sfgov.org, corey.teague@sfgov.org, tina.tam@sfgov.org, matthew.greene@sfgov.org, kevin.birmingham@sfgov.org, mikicristerna@hotmail.com and artcristerna@gmail.com

Hard copies of the briefs do NOT need to be submitted to the Board Office or to the other parties.

Hearing Date: **Wednesday, June 12, 2024, 5:00 p.m., Room 416 San Francisco City Hall, 1 Dr. Carlton B. Goodlett Place**. The parties may also attend remotely via Zoom. Information for access to the hearing will be provided before the hearing date.

All parties to this appeal must adhere to the briefing schedule above, however if the hearing date is changed, the briefing schedule MAY also be changed. Written notice will be provided of any changes to the briefing schedule.

In order to have their documents sent to the Board members prior to hearing, **members of the public** should email all documents of support/opposition no later than one Thursday prior to hearing date by 4:30 p.m. to boardofappeals@sfgov.org. Please note that names and contact information included in submittals from members of the public will become part of the public record. Submittals from members of the public may be made anonymously.

Please note that in addition to the parties' briefs, any materials that the Board receives relevant to this appeal, including letters of support/opposition from members of the public, are distributed to Board members prior to hearing. All such materials are available for inspection on the Board's website at www.sfgov.org/boa. You may also request a hard copy of the hearing materials that are provided to Board members at a cost of 10 cents per page, per S.F. Admin. Code Ch. 67.28.

The reasons for this appeal are as follows:

See attachment.

Appellant or Agent:

Signature: Via Email

Print Name: Miki Cristerna, appellant

Units 670 and 672 Shotwell Street are condos with an HOA. There is an easement over 672 that 670 is benefited by for egress. Due to 670's structural change of closing an exit door that was on the side of 670 and on the easement, 670 no longer has access to this easement for egress without trespassing onto the 672's property above the easement. The owner of 670 Shotwell St. completed work on their unit without getting permits before doing the work. After the complaint was filed, an investigator directed 670 to get permits for all the work done, including the work done pre-permit of closing an exit door on the easement, which was on the side of 670 and where 670 had access to the easement for egress. 670 was also to include in the permit that they opened a new door in the back wall of 670, which does not give them egress access to the easement on the side of the building. 670 filed for a building permit on 3/18/24 as told to by DBI, but they did not include information about the closing and opening of these exit doors. The permit stated there was "no change in layout, walls or openings" which is false since they were told by the investigator to file a permit for the opening/closing of doors. After another complaint, 670 had to file another permit for these door openings and closings. Without a door on the side of 670 at the easement, they are not able to access the easement without trespassing onto 672's property, which 670's owner, contractor and visitors do on a daily basis. 670 is now building a fence in the back of their unit, partially on 672's property, and the plans include a gate giving access to 672's private property above the easement. SFFD signed off on this permit, but didn't know that 670 had closed up their door and access to the easement, or that the gate in the fence in 670's plans would lead them to 672's private property without 672's or our HOA's approval.

Sincerely,
Arturo (Art) Cristerna & Michelle (Miki) Cristerna

San Francisco Department of Building Inspection

San Francisco, CA

Re: Appeal of Permit Decision for Units 670 and 672 Shotwell Street

Dear Members of the San Francisco Department of Building Inspection,

We are writing this brief to respectfully protest the permit given to the owner of 670 Shotwell Street, Beth Miles, and request that specific parts of the permit be denied or that new conditions be placed on the entitlement so that the project is changed in some way. The purpose of this brief is to outline the discrepancies of the permit application and to address the concerns regarding access to the easement and property encroachment.

Background

Units 670 and 672 Shotwell Street are condominiums within a homeowners association (HOA), however, the two units are separate from each other and do not share any walls, floors, ceilings, etc. Prior to the Cristerna's purchases of Unit 672 and Beth Mile's purchase of 670, the units were owned by one person. The previous owner of both units lived in Unit 672, which is the flagged-shaped unit in the back, and the owner rented out Unit 670, which is a rectangular-shaped unit in the front closest to the sidewalk and street. Unit 672 was sold to the Cristerna's and Unit 670 was sold to Beth Miles. 672 was purchased by the Cristerna's on 9.27.23, and 670 was purchased a few days later.

Unit 670 is benefited by and Unit 672 is burdened by an easement over Unit 672 in the lower 'flagpole' area of the property. Prior to the structural changes completed by the new owner of 670, Unit 670 had a door on the side of the Unit that directly accessed the easement on Unit 672 property. During purchasing negotiations with the former owner, there were considerable negotiations regarding the easement on Unit 672's property and several requests to approve additional access to Unit 670. Although Unit 670 has two front doors that lead to public access, we felt it was reasonable, and neighborly, to give egress from this side door that was on the easement. However, since the easement is the only pathway to ensure Unit 670 has daily access to and from the public way, as well as the only way for emergency and safety rescue of Unit 672, it was imperative that we, as future owner of Unit 672, oversee access to our safety.

After compromising on many aspects of easement access during purchasing, within weeks of us purchasing Unit 672 and Beth Miles purchasing Unit 670, the new owner closed up the door on the easement so the unit no longer has a door, and no direct access to the easement. The owner of Unit 670 then opened a door in the back of the unit and insisted on access to Unit 672's property above the easement so as to access the easement. Access to the easement was negotiated when Unit 670 had a door on the easement; without this door, Unit 670 has denied access to the easement on their own accord. The structural change of Unit 670 closing up a door on the easement was done without SFDBI permits, and without discussion, consultation, or consideration with us as the owners of Unit 672 and our HOA.

The owner of Unit 670 initiated this construction work on their unit without obtaining the necessary permits before doing the work. Upon receiving a SFDBI complaint, an investigator from the Department of Building Inspection directed Unit 670 to obtain permits for all the work completed, including the closure of the exit door on the easement side of Unit 670 and the installation of a new door on the back wall. Subsequently, Unit 670 filed for a building permit on

March 18, 2024, as instructed by the DBI. However, the initial permit application failed to include information regarding the closure and opening of exit doors, falsely stating that there were no changes in layout, walls, or openings.

Unit 670 was again addressed by SF DBI to file a permit including all the structural changes, specifically addressing the opening and closing of the doors. Unit 670 applied for this permit on 4.9.2024 and included removing an exterior door, removing an interior door, infilling openings, installing a new exterior door, installing a pocket door, installing a swing door, and building an interior 6' fence. This permit was quickly being approved by DBI, SF Planning, SF Fire, although most of this work should not have been done without a permit in the first place. At this time, we felt we had no other recourse than to apply for an appeal to slow down this process and reach out to the City to better review this process.

If the work on this permit is approved, the occupants of Unit 670 will continue to trespass onto Unit 672's property (above the easement) on a regular basis, whenever they want to access the easement for egress. We, the owners of Unit 672, are not okay with this behavior. And we clearly communicated with the owner of Unit 670 following an incident of a stranger walking onto our property. The stranger was an Airbnb visitor renting a suite in the back of Unit 670. The stranger was provided access to our property to then gain access to the Airbnb suite in the back of Unit 670. Following this incident we informed the owner of Unit 670 that we would consider this trespassing. We later informed the owner of Unit 670 that we would be securing our property from the Airbnb visitors and her other visitors by building a fence along the perimeter of our unit open space, including adding a gate at the top of the easement. Soon after informing Unit 670 of this, Unit 670 started building their own fence with plans to include two gates in the fence so as to allow access from Unit 670's Unit to our property. We have not given permission for Unit 670, visitors, or Airbnb tenants to enter our property through either gate in the fence.

Grounds for Appeal

1. Late/Incomplete Permit Application: Unit 670 did not submit permits prior to starting structural work as is expected. After complaints were filed and direction from inspectors from SFDBI, Unit 670 filed permits which were approved rapidly. However, Unit 670 did not include the closure of the door on the easement, opening of the door in the back of the unit, and other structural changes, as they were directed to do by the DBI Inspector until they were caught again without the correct permits.

2. Access to Easement: The closure of the exit door on the easement has resulted in Unit 670 losing direct access to the easement without trespassing onto Unit 672's property. This issue presents multiple safety issues, as well as property rights issues already outlined. It also places an undue burden on Unit 672.

3. Encroachment on Unit 672's Property: The construction of a fence on the property of Unit 670 is the right of Unit 670, however, there are no grounds for them to access our property via gates in this fence. The inclusion of gates providing access to our private property outside of the easement is not addressed in the permit application process. Unit 670 states that although it wasn't required to include the fence on the permit per our CCR's, Unit 670 added it to the permit stating that Unit 670 needed SF Planning and SF Fire sign off due to requirements for emergency escape and rescue openings. Either a permit was needed or not. If a permit was needed by SF Planning, it is expected to be approved by our HOA first per our CCR's, which is

was not. And if a permit wasn't required, then neither are the gates. We have not been provided with evidence of this requirement after reviewing the EERO Information and consulting with SF Fire.

Conclusion

In conclusion, we appeal to the San Francisco Department of Building Inspection to reconsider the permit decision for Units 670 Shotwell Street. The discrepancies in the permit application process and the resulting issues regarding access to the easement and property encroachment must be addressed to ensure the safety and legal compliance of both Unit 670 and Unit 672. We appreciate your attention to this matter and look forward to a swift resolution.

Sincerely,

Miki and Art Cristerna

Brief Submitted by the Permit Holder

San Francisco Board of Appeals
49 South Van Ness, Suite 1475
San Francisco, CA 94103

Reference: Appeal Number No. 24-032

Dear President Lopez, Vice President Lemberg and Commissioners,

I am disappointed that Appellants brought this appeal over my small remodel project. I believe Appellants have no basis to state that my permit was improperly issued. I recognize that I should not have begun the work before getting all my permits, however, when this was brought to my attention, I asked my architect to quickly get all the necessary permits for my project. My understanding is that Appellants have unrelated issues with how my easements over their property are memorialized in our CC&R's and we are in the process of figuring out a private solution to these issues.

I will let my architect describe in more detail our response to the appeal, but I urge you to deny this appeal as the issues raised are not related to the permits. I have a lot of work ahead of me to try and find a resolution with my neighbors, but the Appeals Board is not the right forum to adjudicate this matter.

Sincerely,

Beth Miles

**Permit Holder's Brief
Prepared by Jim Zack, Architect**

June 18, 2024

President Lopez, Vice President Lemberg, and Commissioners,

Permit Holder's Request to the Board

Permit Holder requests that the Board of Appeals deny this appeal because the permit was properly issued and Appellants' arguments to the contrary are without merit.

Position Statement

Appellants have not presented any evidence or argument that demonstrates the permit was improperly issued. Instead, Appellants raise unrelated issues concerning a private dispute between homeowners about their Homeowner's Association's governing documents, which do not affect the building permit and are beyond the jurisdiction of this Board. Appellants' attempts to weaponize this body to gain leverage in a private easement dispute is unfortunate and should not be rewarded.

Permits and Project Description

The permitted work is entirely code-compliant. Although this modest remodel project commenced without permits in place, which the architect/builder takes complete responsibility for, immediately upon notice of the complaint filed on March 14, the architect went to DBI on March 18 to obtain an OTC building (BPA 2024 0318 8060), plumbing and electrical permits for the interior work that did not require building plans. The work under these permits included new kitchen cabinets, counters and refrigerator,

new lights and a new bath vanity. This work was inspected and signed off within a month of the permit being issued, with a final inspection obtained on April 19. This permit represented 75% of the work.

Due to the Historic A rating of the property, the architect applied for this second permit for the items that required drawings and Planning Department review. It took the architect about two weeks to prepare the required drawings and apply for this second permit, which was obtained OTC on April 9, 2024. This permit proposes to add two new interior doors, fill in one interior door, fill in one exterior door, and install one new exterior door. This permit also includes a fence on two sides of Permit Holder's rear open space, which is adjacent to the Appellants' open space.

Appellants incorrectly assume the work under this permit was intentionally omitted from the earlier permit. Rather, the architect made an intentional decision to obtain two permits to legalize the work as quickly as possible. The overall project's scope is very minor, and the work is mostly complete and can be inspected within a couple of weeks. Neither this permit nor BPA 2024 0318 8060 required Planning entitlements, as erroneously stated by the Appellants. Both permits are minor alteration permits, and while reviewed by Planning for historic and code compliance, were approved by permit plan checkers over-the-counter. Both permits were issued for 670 Shotwell only and do not propose any work on 672 Shotwell, as Appellants seemed to suggest in the salutation of their brief.

Fences that are 6' tall or less do not require a building permit or Planning Department review, *Exhibit 7, SF Planning Fence Guidelines*. However, in this case, the architect chose to include the fence in the permit drawings for several reasons: 1) To confirm that no code requirements prohibit a fence on the interior line dividing two condo units. 2) To have the SF Fire Department plan checkers confirm the proposed fence complied with egress and EERO emergency access requirements.

Through the plan check process, the city confirmed that there are no prohibitions on fences located between condominium units such as these. The SF Fire Department also required a gate in the section of the fence located on the rear property line due to egress and the EERO emergency access requirements. Permit Holder had concerns that Appellants intend to build a fence blocking in Permit Holder's property, so the architect wanted clarification from the Fire Department on the egress requirements to ensure that Permit Holder could safely egress from her property.

Appellants' Arguments

CC&R's and Condo Plan

Appellants' argument focuses on Permit Holder's alleged violations of the parties' CC&R's and the circumstances surrounding the sale of the units to the current owners last year. The parties are working on resolving those issues privately, and they have no relevance to the Board's determination of whether this permit was properly issued.

However, Permit Holder does not wish to leave the issues totally unaddressed, so will respond briefly as follows:

Easements: The parties bought their respective properties from a prior owner who owned both units. The prior owner had separate discussions with each owner concerning an amendment to the CC&R's, which was completed prior to close of escrow and has led to some disagreements between the owners about the meaning of the CC&R's and the allowable use of one of Permit Holder's easements over Appellants' property. As stated earlier, these issues are a private dispute between the owners and the proper forum for resolving these issues is not in front of the Board of Appeals. Even so, the CC&R's unequivocally grant Permit Holder the right to emergency egress over all of Appellants' property, which includes from her open space:

B. Easement over Unit 672. Lot 670 is benefitted by and Lot 672 is burdened by a nonexclusive easement over the Easement Area. The Owner of Unit 670 may use the Easement Area for egress from Unit 670, to move refuse cans to and from Shotwell Street on waste collection days, and to move other items that not suitable to be carried through the front door of the 670 Building. Upon reasonable notice, the easement may also be used as necessary in connection with the painting, maintenance, replacement or reconstruction of Unit 670, including the Building and the Unit Open Space.

C. Utility Easements. Each Owner has an easement over the Common Area to maintain, repair and replace utility lines that are part of the Unit.

D. Entry or Use Rights. Each Unit is subject to the right of any Owner to access over the portion of the other Unit for egress in the event of an emergency.

1 Except from CC&R's, Section 2.3

Permit Holder also has easement rights to remove her trash cans from her open space to Shotwell Street and move other items not suitable to be carried through her front door.

Moreover, Permit Holder is not building anything on Appellants' property, and there are no planning code or building code requirements to include or reference private contractual obligations in a permit application that does not affect the permit. Therefore, the planning and building departments did not err in the review and approval of these permits and the Board should deny the appeal.

Response to Appellants' "Grounds for Appeal"

1. **Late/Incomplete Permit Application:** The structural work involved in this project is minor and is included under this permit because it required drawings. Permit Holder acted immediately to obtain permits after receiving notice from the Building Department, had all required permits approved and issued within three weeks of the complaint, and the work is largely completed. Although, these permits were issued after the work began, it does not mean that they are defective or improperly issued. The permit is also not "incomplete," the project was intentionally permitted in two separate applications to more quickly address the complaint and get approval of as much work as possible as quickly as possible, which was in everyone's interest. Appellants fail to articulate how the permit is incomplete. Moreover, Appellants waited 10 days after the permit issued to file this appeal, after most of the work was already complete and inspected, in an attempt to gain leverage over Permit Holder concerning an unrelated dispute over the parties' CC&R's.
2. **Access to Easement-** The CC&R's grant Permit Holder several easements over Appellants' property, including the undisputed right to cross their property in the

case of an emergency. Permit Holder's only way to exit her open space in the event of an emergency is over Appellants' property. The Fire Department also required a gate to allow the Department access in case of an emergency. Although the scope of some of the other easements are subject to a dispute between the parties, that dispute is irrelevant to this appeal and must be resolved through the proper forum as specified in the parties' CC&R's.

3. **Encroachment on Unit 672's Property.** Permit Holder's property does not encroach onto Appellants' property. There is no proposed work in this permit across the property line. The fence will be built entirely on Permit Holder's property, and the location of the property line was confirmed and agreed to during an in person meeting between the two parties on May 23, 2024 and also discussed when Permit Holder installed the fence posts. The fence gates are allowed by code, open onto Permit Holder's property, and the rear gate was required by the SFFD to facilitate rescue and access for the 22' long EERO rescue ground ladder, *Exhibit 6, SFDBI EG-02- Emergency Escape and Rescue Openings to Yard or Court.*

Conclusion

Appellants have not presented any argument or evidence that the San Francisco Planning Department or Department of Building Inspection erred in their approval and issuance of the subject building permit. Appellants have demonstrated a lack of understanding of the San Francisco permit process and the standard required to grant an appeal and overturn an approved permit. More at issue, the Appellants' primary

justification for granting the appeal relates to a private dispute over the interpretation of the parties' CC&R's, which is not relevant to the issuance of this permit. For these reasons, Permit Holder requests the Board deny the appeal and uphold the approved permit.

Site Visit

Respondent invites the Board of Appeals Commissioners and Planning and Building Department staff to visit the site if clarifications of the site conditions are required.

Subject: Re: Fence
Date: March 11, 2024 at 8:52 AM
To: Beth Miles beth@bethmiles.com, Art Cristerna artcristerna@gmail.com

MC

Hi Beth,

Thanks for following up with us. It's good to hear you're in line with our decision to have a fence that separates our two units. A "good neighbor" fence on our shared property line would be a good option. Shared posts (4x4's), concrete, and labor make the most sense. We can discuss further.

Regarding the property line, we've measured (51".87') from our home along the fence we share with Victoria's House and the measurement ends at a different spot than the location you've suggested, however it still divides the garbage shed. We should have the fence in the correct place, so determining the property line is a priority.

We're already in the process of designing our fence and we've planned to build a new garbage shed on the other side of our property at the same time, so taking the current garbage shed down works for us. We are not planning to have a gate on our fence, but thanks for sharing your ideas.

If you would like to meet to discuss further, let us know a few good days and times.

Thanks,
Art & Miki

the building and regardless of minor variance between boundaries shown on the Plan or deed and those of the building.

B. Common Area. Each Owner owns, as appurtenant to his or her Unit, an undivided ownership interest in the Common Area as shown on the Condominium Plan. Each Owner may use the Common Area in accordance with the purposes for which it is intended without hindering the exercise of, or encroaching upon the rights of any other Owners.

2.2 NO SEPARATE CONVEYANCE OF COMMON AREA. The undivided interest in Common Area appurtenant to each Unit is permanent in character and cannot be altered without the consent of all the Owners affected and their first Mortgagees as expressed in an amended Declaration. The undivided interest in Common Area cannot be separated from the Unit to which it is appurtenant, and is conveyed or encumbered with its respective Unit even though the instrument of conveyance or encumbrance may refer only to the Unit.

2.3 EASEMENTS AND USE RIGHTS. The following easements, reservations and use rights affect the Project.

A. Structural and Support Easements. Each Unit is benefitted and burdened by a non-exclusive easement over the Common Area as necessary for the full use, enjoyment and support of the Buildings. An Owner may not improve or otherwise use the Owner's Unit in a manner that would disturb the structural support of the other Owner's Building or the portion of the Unit outside of the Building.

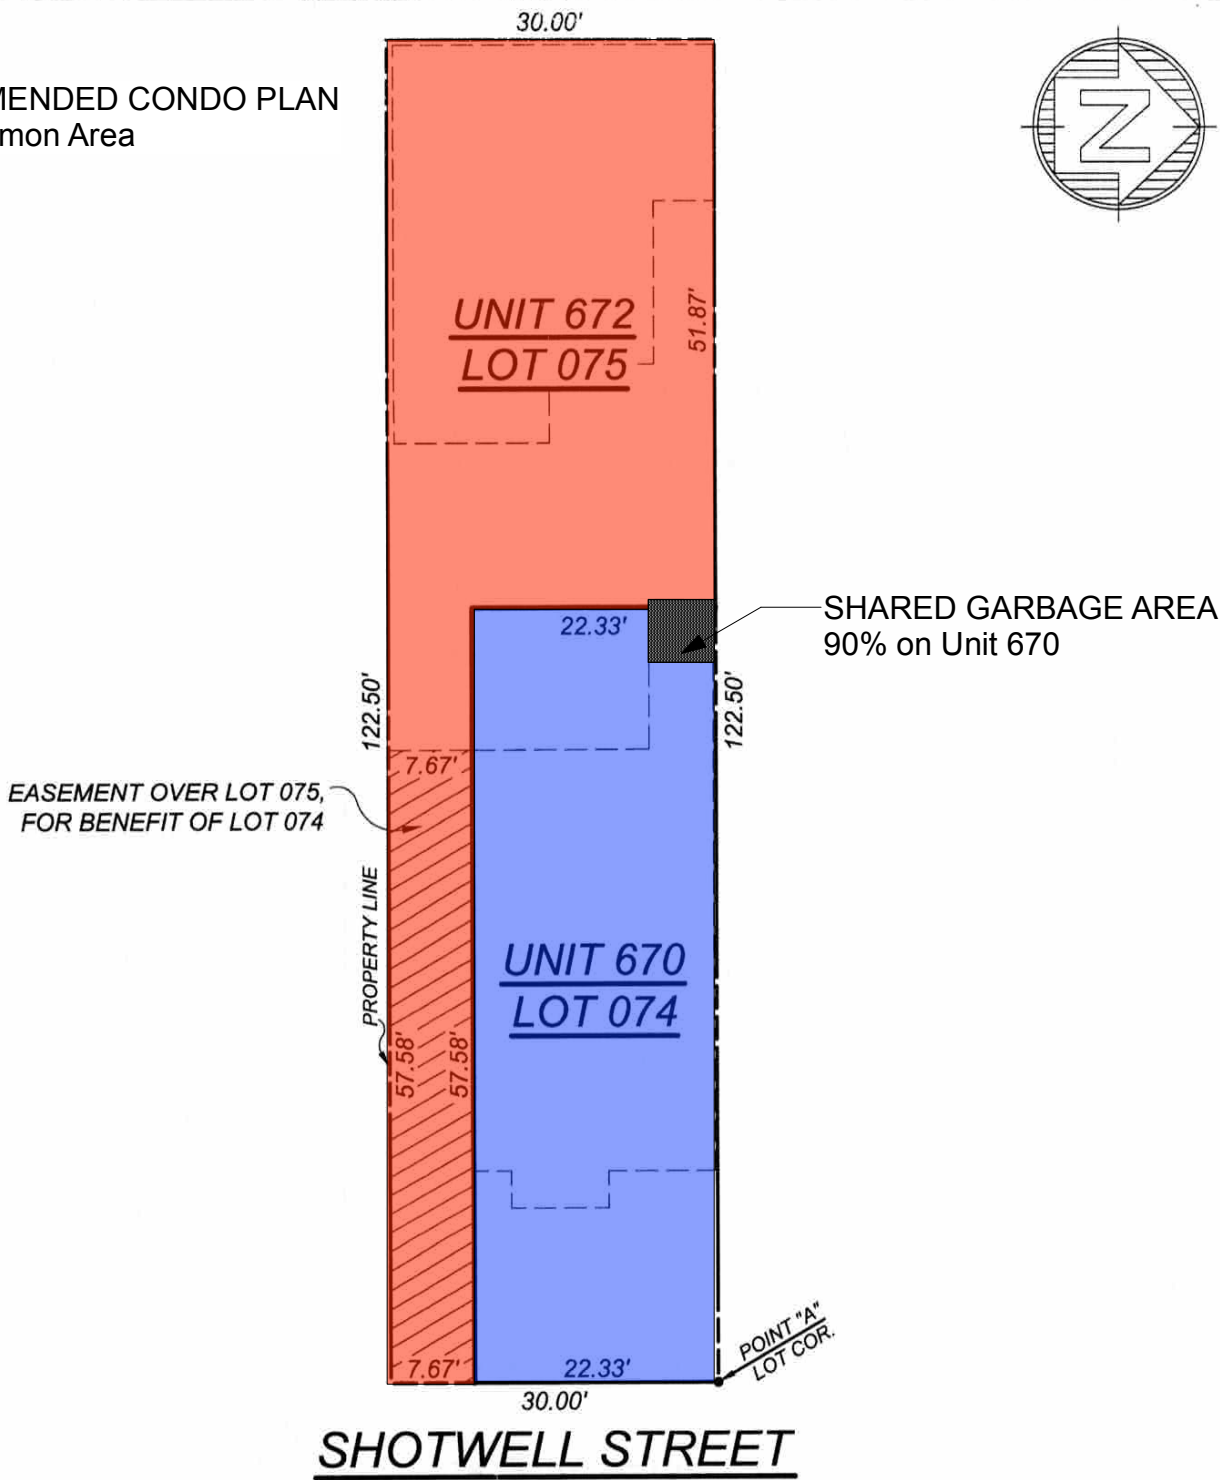

B. Easement over Unit 672. Lot 670 is benefitted by and Lot 672 is burdened by a nonexclusive easement over the Easement Area. The Owner of Unit 670 may use the Easement Area for egress from Unit 670, to move refuse cans to and from Shotwell Street on waste collection days, and to move other items that not suitable to be carried through the front door of the 670 Building. Upon reasonable notice, the easement may also be used as necessary in connection with the painting, maintenance, replacement or reconstruction of Unit 670, including the Building and the Unit Open Space.

C. Utility Easements. Each Owner has an easement over the Common Area to maintain, repair and replace utility lines that are part of the Unit.

D. Entry or Use Rights. Each Unit is subject to the right of any Owner to access over the portion of the other Unit for egress in the event of an emergency.

E. Encroachment Easements. Each Unit has an easement over the other Unit and the Common Area for the purpose of accommodating any encroachment due to engineering errors, errors in original construction, settlement or shifting of the building, rebuilding or repair of a Building, or any other cause as long as the encroachment exists. However, a valid encroachment is not created in favor of an Owner if it occurred due to the Owner's willful misconduct.

**INFORMATION SHEET**

No. EG-02**DATE** : January 15, 2024**CATEGORY** : Egress**SUBJECT** : **Emergency Escape and Rescue Openings (EEROs) to Yard or Court for Existing or New Buildings with Group R-3 Occupancies**

REFERENCE : California Building Code (CBC), Current Edition
San Francisco Building Code (SFBC), Current Edition
San Francisco Fire Code (SFFC), Current Edition
CBC Section 1031, Emergency Escape and Rescue
SFBC Administrative Bulletin AB-005 Procedures for Approval of Local Equivalencies
SFBC Administrative Bulletin AB-028 Pre-application and Pre-addendum Plan Review Procedures**INTENT** : To clarify local equivalency requirements for emergency escape and rescue openings that open to a yard or court without direct access to a public way for Group R-3 occupancies**BACKGROUND :**

California Building Code (CBC) Section 1031 requires that emergency escape and rescue openings (EEROs) open directly to a public way or to a yard or court that opens to a public way. On December 3, 2018, the California State Fire Marshal issued a code interpretation that EEROs in Group R-3 occupancies are required to be accessible by emergency rescue personnel using ground ladders. This information sheet addresses the condition where the EEROs in Group R-3 occupancies are open to a yard or court that does not open to a public way and thus inhibits the ability for ground ladder access to the EEROs for rescue. The applicability of EEROs and associated requirements are prescribed in CBC Section 1031. In addition, projects are subjected to review for compliance with CBC Section 1031 where proposed scopes of work further restrict access for emergency rescue personnel to perform rescue operations at EEROs.

DISCUSSION :

The intent of the code is that (1) EEROs be available so that occupants may **escape** from sleeping rooms

directly through the EEROs to the exterior of the building without necessitating additional travel through the building; and (2) EEROs be available for emergency rescue personnel to access sleeping rooms to **rescue** occupants. Where EEROs are open to a yard or court that does not have access to a public way, then the intent of the code to accomplish both escape and rescue is not met.

Projects may request for the approval of a local design equivalency where both of the following conditions are met:

1. The **escape** criteria for the EERO may be accomplished where the EERO opens into a yard with a minimum of 25 feet in depth. The 25-foot depth shall be measured from the most remote point of the lot to any portion of the building, including any combustible projections.
2. The **rescue** criteria for the EERO at a yard or court that does not open to a public way shall be proposed by the project sponsor and evaluated at the time of submittal on a case-by-case basis by a Department of Building Inspection (DBI) and San Francisco Fire Department (SFFD) plan review supervisor or manager. Acceptable local design equivalency alternatives for the rescue criteria are listed in this information sheet.

Other conditions may be evaluated on a case-by-case basis by a DBI and a SFFD supervisor or manager. A pre-application meeting and/or approval of a local equivalency request per SFBC Administrative Bulletin AB-005 is required.

ACCEPTABLE LOCAL EQUIVALENCIES FOR RESCUE:

In the event that EEROs open to a yard or court that does not open to a public way, the following three local equivalencies for the rescue criteria are acceptable by DBI and SFFD. Request to use the following local equivalencies shall be accompanied by a request for a local design equivalency approval per SFBC Administrative Bulletin AB-005 and will be reviewed and approved on a case-by-case basis. These requirements do not alleviate and shall not diminish any other code requirements established in the SFBC and SFFC.

Rescue Criteria Alternative 1 – Fire Department Ground Ladder Access:

The rescue criteria for the EERO at a yard or court that does not open to a public way may be accomplished by providing a minimum 3-foot wide pathway that can accommodate a 22-foot straight ladder from the public way to the yard or court. A rescue pathway diagram shall be provided on the plans demonstrating the ability for a 22-foot ladder to be carried from the public way to the yard or court where the EERO is located and lifted into place. NOTE: The rescue pathway may travel through garage doors, swing doors and sliding patio doors; but not windows. The rescue pathway may also lead directly to the bedroom door.

Commentary for Rescue Criteria Alternative 1:

SF Fire Department uses a 22-foot straight ladder or a 35-foot extension ladder to reach EERO's on the 2nd and 3rd floors. Thus, SF Fire Department needs a minimum 3-foot wide clear pathway to carry the 22-foot straight ladder and 35-foot extension ladder (21 feet unextended) from the street, through a building, to the ground below the EERO. Obstructions, such as fences or detached accessory buildings in the rescue yard or court shall not require that the ladder be raised to navigate around such obstacle. Thus, the entire ladder must be positioned at ground level in the yard/court before it is raised to lean against the building.

Rescue Criteria Alternative 2 – Roof Access for Rescue:

The rescue criteria may be accomplished by providing vertical access to the EEROs from the roof level.

Exhibit 6.3

The roof slope shall not exceed a 4:12 pitch at any location along the roof access route to the yard or court. The following vertical access components are required between the roof level and the level of each EERO:

1. Stairs shall comply with CBC Section 1011. Spiral stairways and alternating tread devices are not permitted as an alternative.
2. Alternate stair design, such as ship's ladders and ladders, shall have a maximum stair incline of 72 degrees from horizontal.

A balcony, deck, or landing is required directly outside of each EERO:

1. Minimum/maximum 3 feet wide in the direction perpendicular to the EERO.
2. Minimum/maximum length shall be the width of the EERO opening or 3 feet, whichever is longer.
3. Any intermediate landings or platforms shall have the minimum/maximum dimensions of 36-inch deep by 72-inch long.

Rescue Criteria Alternative 3 – Yard Access for Rescue:

The rescue criteria may be accomplished by providing vertical access to the EEROs from the yard level. A vertical access component with the following requirements is required between the ground level and the level of each EERO:

1. Stairs shall comply with CBC Section 1011. Spiral stairways and alternating tread devices are not permitted as alternatives.
2. Alternate stair design, such as ship's ladders and ladders per CBC Section 1011, shall have a maximum stair incline of 72 degrees from horizontal.

A balcony, deck, or landing is required directly outside of each EERO:

1. Minimum/maximum 3 feet wide in the direction perpendicular to the EERO.
2. Minimum/maximum length shall be the width of the EERO opening.
3. Any intermediate landings or platforms shall have the minimum/maximum dimensions of 36-inch deep by 72-inch long.

Commentary for Rescue Criteria Alternatives 2 and 3:

Where access for a 22-foot ladder cannot be provided, stairs may be provided for SF Fire Department to access EEROs and enter sleeping areas to rescue occupants, in place of ladder access. SF Fire Department requires a minimum 3-foot-wide stairway, platform, and pathway to perform rescue operations. These two alternatives deliberately set minimum/maximum dimensions so as not to trigger Planning requirements for non-safety related projections. The working angle of a SF Fire Department ground ladder is 72 degrees from horizontal, and therefore shall be the steepest angle of a proposed stairway.

Date:
January 2019

Subject:
Fences

Introduction

A building permit is not required for a fence that is three feet or less in height at the front of a property, or six feet or less in height at the side or rear property lines. Neighborhood notification is not required for fences ten feet or less in height. If a fence is ten feet or less in height and it meets the restrictions discussed below, it will usually be approved over the counter.

Controls on allowable heights of fences are contained in the Planning Code. They are based on the location of the fence(s) on the property and required yards and setbacks. In all residential zoning districts there are rear yard requirements. There may be side yard and front setback requirements as well. There are rear yard requirements in some commercial districts and in any commercial, industrial or mixed use district at the first story containing a dwelling. (Thus a ground floor dwelling would trigger a rear yard requirement at the ground level in these districts). The area of a lot that is not subject to a required setback is known as the 'buildable area'. (See Figure 1).

*Figure 1:
Yards and Setbacks*

FRONT SETBACK

Front setback requirements apply in RH, RM and RTO districts which encompass most San Francisco residential neighborhoods. These are generally based on the location of the front building walls of the adjacent properties fronting on the same street. The required setback for a property is usually an average of the setbacks of these two adjacent properties (see Figure 2).

Figure 2: Front Setbacks

If your property is a corner lot and subject to a front setback requirement it would be equal to one-half of the setback of the one adjacent property. (In a few cases there are front setbacks that are legislated by ordinance. See the discussion below under Variance).

If there are no adjacent setbacks, e.g. the adjacent buildings are built to the front property line, then your lot would have no front setback requirements.

The maximum required front setback is equal to 15% of the lot depth or 15 feet, whichever is less. So even if the adjacent buildings are substantially set back, you would not be required to set back beyond the maximum.

If you propose a fence within the required front setback area, it is limited to a height of 3 feet if solid, and 6 feet if 75% open. A 75% open fence would typically be something like a wrought iron gate where the solid portions of the fence make up 25% or less of the total area of the fence (see Figure 3, left). A picket fence with minor openings between slats would not qualify unless the slats were very thin and/or had large gaps between them (see Figure 3 right). (Please note, you will not be permitted a fence that is 3' solid with any additional fencing above that height in the front setback.)

REAR YARDS

Generally, rear yards are required in all residential districts. With few exceptions, the requirements are either 25% or 45% of lot depth depending on the zoning. Rear yards are required in some commercial districts from the ground up, and in all commercial districts at residential levels, typically as a 25% of lot depth requirement. In the case of the 45% of lot depth requirement, the rear yard can be reduced based on an average of the adjacent building walls, i.e. if these building walls project further than the 45% requirement on your lot, then your requirement can be reduced to the average of those projections (see Figure 4). The requirement cannot be reduced to less than 25% of lot depth or 15' whichever is greater.

Figure 3: 'Open' and Solid Fences

Figure 4: Rear Yards

Exhibit 7.3

In the required rear yard area, the maximum allowable height of a fence is 10 feet above grade. (There may be circumstances, particularly when there are substantial grade differences between parcels, when the Zoning Administrator could authorize a fence up to six feet above a retaining wall on a case-by-case basis regardless of total height above the grade.)

SIDE YARDS

In a limited number of residential areas there are also side yard requirements (Residential House, One-Family (Detached Dwellings)). Per Planning Code Section 133, lots with a width of 28 feet or greater must provide side yards, increasing in size based on the width of the lot up to a maximum of 5 feet on each side. The limitations described in the preceding section for rear yards would also apply in side yards, i.e. fences are allowed up to 10 feet in height.

If you have any questions about determining your yard or setback requirements you should contact the Planning counter at the Permit center by e-mail pic@sfgov.org.

BUILDABLE AREA

You may build a fence taller than 10 feet within the buildable area of the lot (see Figure 1 and Figure 5). In residential districts, and some commercial districts, this would require a neighborhood notification. Please see the Neighborhood Notification handout for more. A fence taller than 10 feet in the buildable area may also be subject to review under the Residential Design Guidelines.

VARIANCE

If you wish to build a fence in a required yard or setback that exceeds the limitations stated above, you would need to seek and justify a Variance. In limited areas there are front setbacks that are established by ordinance. These are known as 'legislated setbacks'. The rules for fences in these areas are the same as 'typical' front setback requirements. However, a variance cannot be issued for exceptions to legislated setbacks. The setback would have to be modified or abolished

by ordinance, i.e. the Board of Supervisors, so that the fence would be allowable.)

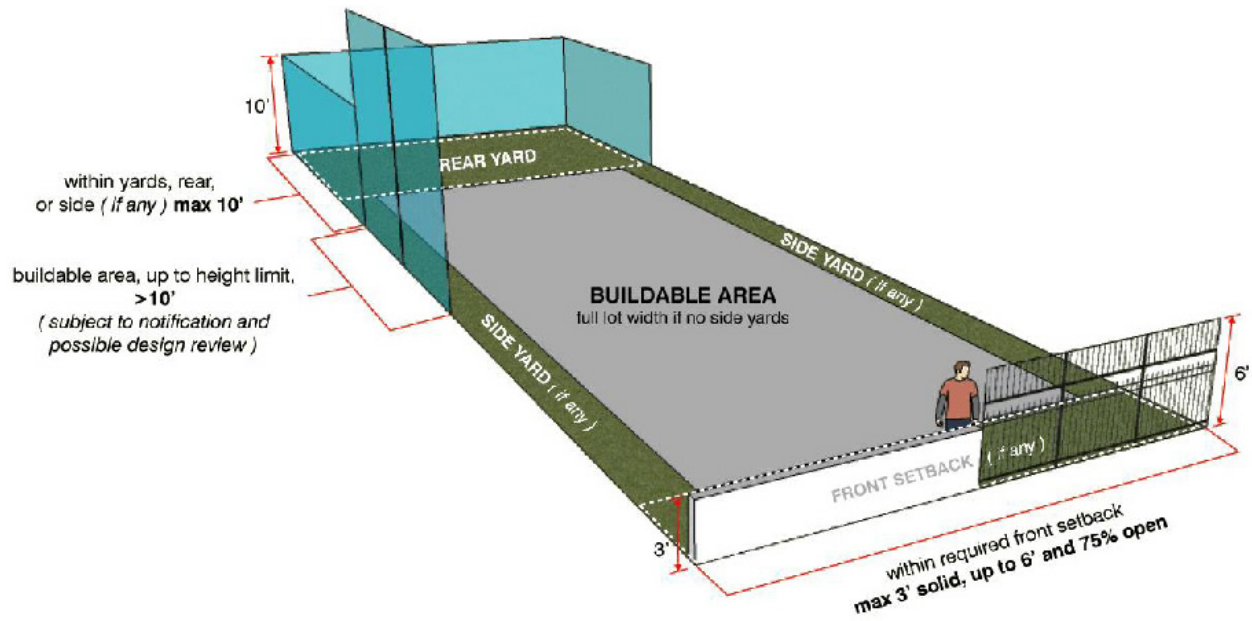

PERMITTING

When applying for a fence permit, provide plans that show the precise location of the fence on the site, the location of any required setbacks, and the height of the fence. If you are constructing a fence greater than 3 feet in height in the front setback and are relying on openness of the fence to gain additional allowable height, you should also show by illustration or diagram how the proposed fence meets the openness requirement.

Summary

Figure 5 below illustrates the Planning Code restrictions on fences. In summary, fences in a required front setback are limited to a maximum height of 3' if solid or 6' if 75% open. Fences in required yards, rear or side, are limited to 10' in height. Fences in the buildable area have no specified height restriction other than the applicable height limit for the lot. However, for fences greater than 10' in height neighborhood notification may be required and design review standards may limit the allowable height of the fence. Again, If the fence is less than or equal to 10 feet in height and it meets all other applicable limitations, it will typically be approved over the counter.

information SHEET

EG-02

directly through the EEROs to the exterior of the building without necessitating additional access through the building, and (2) EEROs be available for emergency rescue personnel to access sleeping rooms or common areas, without the need for keys or other means of access to a public way, then the intent of the code to accomplish both design and rescue is not met.

Projects may request for the approval of a local design equivalency where both of the following conditions are met:

1. The **rescue criteria** for the EERO may be accomplished where the EERO opens into a yard with a minimum of 25 feet in width. The 25-foot depth shall be measured from the most remote point of the lot to any portion of the building, including any combustible projections.
2. The **rescue criteria** for the EERO at a yard or court that does not open to a public way shall be met by the project owner. The project owner shall submit a design equivalency approval request by a Department of Building Inspection (DBI) and San Francisco Fire Department (SFFD) plan supervisor or manager. The design equivalency shall design equivalency alternatives for the rescue criteria are listed in this information sheet.

Other conditions may be evaluated on a case-by-case basis by DBI and a SFFD supervisor or manager. A pre-application meeting and/or approval of a local equivalency request per SFFC Administrative Bulletin AB-05 is required.

ACCEPTABLE LOCAL EQUIVALENCES FOR RESCUE:

In the event that EEROs open to a yard or court that does not open to a public way, the following three local equivalencies for the rescue criteria are acceptable by DBI and SFFD. Request to use the following local equivalencies shall be submitted by project owner to the Department of Building Inspection (DBI) Administrative Bulletin AB-05 and will be reviewed and approved on a case-by-case basis. These equivalencies are not absolute and shall not diminish any other code requirements established in the SFFC and SFFC.

Rescue Criteria Alternative 1 – Fire Department Ground Ladder Access:

The rescue criteria for the EERO at a yard or court that does not open to a public way may be accomplished by the project owner by installing a minimum 3-foot wide pathway that can accommodate a 22-foot straight ladder from the public way to the yard or court. A rescue pathway diagram shall be provided on the plans and shall clearly identify the pathway to be installed by the project owner. The pathway shall be located in the EERO's location and if further notice. NOTE: The rescue pathway may be through garage doors, swing doors and sliding glass doors, but not windows. The rescue pathway may also lead directly to the building.

Commentary for Rescue Criteria Alternative 1:
Fire Department uses a 22-foot straight ladder on a 35-foot extension ladder to reach EERO's on the 2nd and 3rd floors. Thus, SFFD Fireman needs a minimum 3-foot wide clear pathway to reach the 22-foot straight ladder and 35-foot extension ladder (not 1-foot unobstructed) from the driveway through a building, and then to the EERO. Obstructions, such as fences or detached accessory structures in the rescue yard or court that not require that the ladder be raised and brought around such obstructions. The entire rescue pathway is positioned at ground level at the yard/court before it is raised to lean against the building.

Rescue Criteria Alternative 2 – Roof Access for Rescue:

The rescue criteria may be accomplished by providing vertical access to the EEROs from the roof level.

An aerial photograph of a residential neighborhood. The image shows several houses of different sizes and styles. A large, modern house with a grey roof and multiple windows is prominent in the upper left. To its right is a smaller house with a brown roof. In the center, there's a house with a brown roof and a large, open lawn. To the right of that, a house with a grey roof and a large, open lawn is visible. The bottom of the image shows a house with a brown roof and a large, open lawn. The overall scene is a mix of modern and traditional architecture in a suburban setting.

PUBLIC COMMENT

From: [John Ramsbacher](#)
To: [BoardofAppeals \(PAB\)](#)
Cc: beth@bethmiles.com
Subject: Letter of Support for Beth Miles, owner of 670 Shotwell Street; Appeal Number 24-032
Date: Tuesday, June 18, 2024 1:27:35 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board,

I am writing this email in support of the owner of 670 Shotwell Street, Beth Miles. I own the property immediately next door at 666-668 Shotwell where we operate an Adult Residential Facility. Beth has been a great neighbor since her recent purchase of the property. Beth's home abuts our property line and we worked collaboratively with her to add water proofing to the side of her foundation which borders our planter bed. As a property owner in San Francisco, it was refreshing to work with a neighbor in a simple friendly manner.

I fully support Beth's efforts to continue to improve her newly purchased home which had years of deferred maintenance and hope her permit is upheld so she can continue to improve her property.

It appears the issue between the neighbors of 670 and 672 is a private HOA dispute and the appeal of a properly issued building permit is not the best forum.

Sincerely,

John Ramsbacher
Owner of 666-668 Shotwell

From: [Ayman Farahat](#)
To: [BoardofAppeals \(PAB\)](#); [Beth Miles](#); [Murielle Dumelie](#)
Subject: Letter of Support for Beth Miles, owner 670 Shotwell Street; Appeal Number (24-032)
Date: Wednesday, June 19, 2024 6:53:58 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

We are writing to express our support for Beth Miles in regards to Appeal Number 24-032. Murielle Dumellie Farahat and Ayman reside at 671 Shotwell and first met Beth in November 2023 when she moved into her new home on 670 Shotwell across the street from our house.

From the very first time we met Beth we formed a favorable impression . Beth showed a great passion for her property and the neighborhood. We saw first hand her efforts to turn her home from a somewhat neglected house to a cozy home. Beth, a highly regarded designer, applied her skills to turn her home into a neighborhood gem both inside and outside. We have seen her work very hard to beautify her home taking care of trees and adding artistic touches. These changes are particularly welcome given the myriad of problems facing the neighborhood and its very reassuring to see homeowners who care about their homes and their neighborhood.

Over the period we got to know Beth personally and meet her many friends and family. Her close and enduring friendships attest to her character and integrity. Above all her close and loving relation with her daughter Somerset is a testament of a loving mother and parent.

In summary, Beth is a wonderful individual who has and continues to transform the neighborhood into a better, more liveable place. She loves her home and has been working hard to transform a neglected house into a neighborhood gem. Beth always strives to do what's right and will not cut corners and is an exemplary neighbor, friend and parent. We have no reservation in supporting her in the aforementioned case and recommend that the board reject the appeal and allow Beth to continue with her permitted work to beautify her property and contribute to the neighborhood.

Murielle and Ayman Farahat

From: [Cynthia Traina](#)
To: [BoardofAppeals \(PAB\)](#)
Subject: Appeal No. 24-032/AGAINST
Date: Thursday, June 20, 2024 2:49:42 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear SF Appeals Board

I received a notice about a permit appeal for the property (670 Shotwell Street) which is 150 feet away from my property at 647 Shotwell Street Appeal No 24-032.

I am in support of 670 Shotwell and their existing building permit. I am not in favor of re-visiting and repealing the existing building permit 2024/04/09/9596.

It seems like a huge waste of public resources to fight a permit that has ALREADY been issued by the building department. If this an HOA dispute, it should be settled by lawyers and/or mediation, and not with public funds and the valuable time of the appeals board. What if everyone started challenging building permits that were already issued?

My understanding is that a fence and a door to provide access to the private back yard was installed by 670, which is allowed in their HOA documents.. It is a mystery to me why this is going in front of the appeals board, especially since the work has already been approved and permitted.

PS, the notecard had a date correction that was hand written with a new date of July 17.
Please confirm this is the correct date.

Please send me any other information about this appeal in case I am missing anything, as well as any further changes to the appeal date.

Thank you!

Date: Thursday, June 20, 2024 10:50:41 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear SF Appeals Board:

I am opposed to Appeal No. 24-032 regarding a permit issued to 670 Shotwell St.

I received the appeal notice regarding the approved permit 2024/04/09/9596. I see no public or community benefit whatsoever in revisiting valid and properly vetted building permits issued to the owner.

Re: Letter of Support for Permit Appeal : 24-032 - Art & Miki Cristerna

Dear Members of the San Francisco Board of Appeals,

I am writing to express my full support for the Permit Appeal 24-032 filed by Art & Miki Cristerna concerning permit 2024/04/09/9596. I urge you to consider their request to revoke the permit of Beth Miles, the owner of 670 Shotwell Street, for removing a door that provided access to the easement on the Cristerna's property at 672 Shotwell Street. Additionally, I support their concerns regarding Ms. Miles' plans to build gates in a newly constructed fence that could potentially grant her and her Airbnb tenants access to the Cristerna's property.

Art and Miki Cristerna have been long-standing residents of Shotwell Street in the Mission District for over 25 years. They have been my neighbors and friends for the same amount of time and they have not only contributed to the community but have been exemplary educators who care deeply about the welfare and integrity of our neighborhood. Last fall, it was a joy for our community when they were able to fulfill their dream of becoming first-time homebuyers, ensuring their continued presence and positive influence on Shotwell Street.

As a homeowner in the Mission District for more than 40 years and an employee for SFUSD for over 20 years, I too share the Cristerna's significant concerns about the impact of Ms. Miles' actions on our community. Our close knit community has been impacted by not only gentrification, but also by owners who are similar to Ms. Miles that are more focused on their economic gain from renting out an Airbnb suite rather than contributing positively to our neighborhood as a whole and being responsible homeowners who live in their homes. By removing the door and planning to install gates that could potentially provide unauthorized access to the Cristerna's property, Ms. Miles is jeopardizing the privacy, security, and property rights of long standing residents like the Cristerna's.

It is essential that the Board of Appeals carefully considers the potential implications of Ms. Miles' actions on the community and uphold the rights of residents like the Cristernas who have invested in our neighborhood both financially and emotionally. Revoking the permit and ensuring compliance with property laws and neighborhood regulations is crucial to maintaining the integrity and safety of our community.

Thank you for considering my support for the Cristernas' appeal. Please feel free to contact me if you require any further information regarding this matter.

Sincerely,

Victoria Araiza

Dear Members of the San Francisco Board of Appeals,

I am writing to express my full support for the Permit Appeal 24-032 filed by Art & Miki Cristerna concerning permit 2024/04/09/9596. I urge you to consider their request to revoke the permit of Beth Miles, the owner of 670 Shotwell Street, for removing a door that provided access to the easement on the Cristerna's property at 672 Shotwell Street. Additionally, I support their concerns regarding Ms. Miles' plans to build gates in a newly constructed fence that could potentially grant her and her Airbnb tenants access to the Cristerna's property.

Since 2010 I've had the pleasuring of moving next to and sharing a wall with Art and Miki when I first moved to Shotwell Street. They have been long-standing residents of Shotwell Street in the Mission District for over 25 years. They have not only contributed to the community but are neighbors whom I've come to know personally and trust to look after my home if I am out of town. Last fall, it was a joy for our community when they were able to fulfill their dream of becoming first-time homebuyers, ensuring their continued presence and positive influence on Shotwell Street.

I share the Cristerna's significant concerns about the impact of Ms. Miles' actions on our community. In addition, it appears Ms. Miles moved the door from the easement onto the Cristerna's property without their knowledge or approval. This plus, installing gates could potentially provide unauthorized access to the Cristerna's property, Ms. Miles is jeopardizing the privacy, security, and property rights of long standing residents like the Cristerna's.

It is essential that the Board of Appeals carefully considers the potential implications of Ms. Miles' actions on the community and uphold the rights of residents like the Cristernas who have invested in our neighborhood both financially and emotionally. Revoking the permit and ensuring compliance with property laws and neighborhood regulations is crucial to maintaining the integrity and safety of our community.

Thank you for considering my support for the Cristernas' appeal. Please feel free to contact me if you require any further information regarding this matter.

Sincerely,

Kelli Mekkelsen

We have known the Cristernas since they moved into their new home at 672 Shotwell Street, and have watched them clean up the rear portion of the yard and prepare it for a patio and new landscaping. They have helped us resolve a long-standing issue with the shared fence at the top of the property.

We have also watched the owner of 670 Shotwell make improvements, including moving the rear, kitchen door from its original location at the side of the front building to the rear of the front building. She has also built a fence surrounding a portion of the rear yard.

Although we have not spoken with the owner of 670 Shotwell about this work, we have come to understand that this work was done without permit, and that she has applied for a permit for this work after the work was completed. We have also heard that she intends to use this rear door as the main entrance for her AirBnB customers. This is somewhat concerning to us as the intended access to this AirBnB unit is directly across from our bedrooms. The added activity of individuals entering and leaving the gated driveway daily would be problematic. We are unsure why she wants this to be the primary entrance of the AirBnB since she has two front doors, one on the first floor and one on the second floor, both located at the front of the building. These entrances to the building have direct street access via a small set of stairs separate from the gated driveway.

Please let us know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Ed M. Bingham".

Re: Letter of Support for Permit Appeal : 24-032 - Art & Miki Cristerna

Dear SF Board of Appeals:

Thanks to my cousin marrying the love of his life who turned out to be Miki Cristerna's college best friend and having said cousin come to SF with his daughters a few years back, I got to know the Cristerna's.

Since then, they have become best friends. Aside from doing a Food Runners drop off each Saturday up the street, I was not aware of the kind of close knit neighborhood Shotwell Street is.

When I first met Miki & Art, they were living in a tiny cramped basement apartment with their two hard working sons — Diego & Nakai — saving up to realize the American dream — home ownership.

During that time I was invited to a number of curbside neighbor get-togethers where I met people who had known (and loved) the Cristerna's ever since they met. So many of these people have lived in the neighborhood in the same home for decades and are extremely close to one another. Being the guest of Miki & Art automatically granted me an honorary membership in the group.

I've lived in SF since 1991 (and actually lived here in the 60s when I was an advance "man" for the Ice Follies then housed at Winterland at Post & Steiner.) That job helped me gain the skills I needed to in 1972, open my own PR & Literary Agency in NYC on 53rd & Madison.

In 1989 I met a single straight man with a job who lived in SF and asked me to marry him (I received enormous press — labeled the world's oldest first time bride) In 1991, after a cross country marriage, we decided to move to SF.

Pardon the aside.

Back to Miki & Art. To say that this family has worked hard to achieve its goals is a major understatement. So everyone celebrated when Miki & Art found their dream house right down the street from where they have spent so many years.

Miki & Art's sons grew up on Shotwell Street and all during their high school years worked after school daily to help pay their college tuition. They are both heading off to college in the fall. Diego and Nakai are also champion football & rugby players (recently they competed in Ireland with the SF/Golden Gate Rugby Club where their team won all the events).

To say that this family works hard to achieve its goals in a major understatement.

I helped them move in. Their new home is behind a street facing home. The two owners formed a HOA. Art & Miki are enormously generous and considerate so when their neighbor (who moved to Shotwell Street from out of town) began work on her place they were happy for the improvements. It was not until the neighbor moved an entrance door from the easement to the back on her home (facing Miki & Art's home) and encroaching on Miki & Art's property that they learned she was adding an AirBnb. They were given no advance notice when it opened, so when very late one dark night they saw a stranger walking up the easement they were about to call 911 then the stranger entered the newly added entrance door. It was then, they realized that strangers would be constantly intruding on their property at all hours.

They tried discussing this with their fellow HOA member who refused to discuss it and said it was all approved. Then Miki did some searching and found that all of this work had been completed before permits and requests had been filed. After that Beth Miles' close friend, an architect named Jim Zack filed the paperwork.

Since then Beth Miles has refused to discuss the matter and refuses to talk to the Cristerna's about anything. She is definitely not the sort of person who has lived on Shotwell before. Miki & Art are concerned that this woman who seems to feel she is entitled to do whatever she wants on their property and argue about it afterwards.

My understanding is that Miki & Art own the area labeled the easement and have granted "occasional" use to their neighbor for "neighborly fixes" not architectural changes or access for others. The front home has two entrances meaning that AirBnb guests could enter through the front without using the easement and without entering Miki & Art's property. Miki & Art are asking that the old door that was on the side of the 670 be re-opened so there is a clearly delineated understanding of where 670 has access to the easement. As well an opportunity to review and discuss subsequent plans that could affect their property.

All Miki & Art want is to live in harmony in the most harmonious neighborhood I've ever known. Between my husband's death and the pandemic, it has been hard to meet new people. So I consider myself damned lucky to have gotten to know these two people over the last 4 years. I'm old enough to be their grandmother.

Please let know if there is anything else you'd like me to provide.

Letter of Support for Permit Appeal : 24-032 - Art & Miki Cristerna

Dear Members of the San Francisco Board of Appeals,

I am writing to express my complete support for the Permit Appeal 24-032 filed by Art & Miki Cristerna concerning permit 2024/04/09/9596.

I urge you to consider their request to revoke the permit of Beth Miles, the owner of 670 Shotwell Street, for removing a door that provided access to the easement on the Cristernas' property at 672 Shotwell Street. Additionally, I share their concerns regarding Ms. Miles' plans to build gates in a newly constructed fence that could potentially grant her and her Airbnb tenants access to the Cristernas' property.

Art and Miki Cristerna have been exemplary residents of Shotwell Street in the Mission District for over 25 years. Their recent achievement of becoming first-time homebuyers has been a source of inspiration for our community, solidifying their commitment to our Shotwell Street's welfare and integrity.

I share the Cristernas' significant concerns about the potential impact of Ms. Miles' actions on our community. It appears that Ms. Miles may prioritize economic gain from Airbnb rentals over contributing positively to our neighborhood. By removing the door and planning gates that could provide unauthorized access to the Cristernas' property, Ms. Miles jeopardizes their privacy, security, and property rights.

It is crucial for the Board of Appeals to carefully weigh these implications and uphold the rights of residents like the Cristernas, who have invested both financially and emotionally in our neighborhood. Revoking the permit and ensuring compliance with property laws and neighborhood regulations are essential steps in preserving our community's integrity and safety.

Thank you for considering my support for the Cristernas' appeal. Please do not hesitate to contact me if you need further information regarding this matter.

Thank you for considering my support for the Cristernas' appeal. Please feel free to contact me if you require any further information regarding this matter.

Sincerely,
Chad Salter

Re: Letter of Support for Permit Appeal: 24-032 - Art & Miki Cristerna

Dear Members of the San Francisco Board of Appeals,

I am writing to express support of the Permit Appeal 24-032 filed by Art & Miki Cristerna regarding permit 2024/04/09/9596. I urge you to consider this request to revoke the permit of Beth Miles of 670 Shotwell Street for removing a door that provided access to the easement on the Cristerna's property at 672 Shotwell Street. I also share their concerns regarding Ms. Miles' plans to build gates in a newly constructed fence that could potentially grant her and her Airbnb tenants access to the Cristerna's property.

Art and Miki Cristerna have been residents of Shotwell Street for over 25 years. They are both active in the community and have been model neighbors who care deeply about the neighborhood. Last fall, Art and Miki were able to fulfill their dream of becoming first-time homebuyers, ensuring their continued presence and positive influence on Shotwell Street and in the Mission District.

By removing the door and planning to install gates that could potentially provide unauthorized access to the Cristerna's property, Ms. Miles is jeopardizing the privacy, security, and property rights of the Cristernas.

I share the Cristerna's concerns about the impact of Ms. Miles' actions on our community. It appears that Ms. Miles purchased the property with the intent of renting out an Airbnb suite with little consideration of the impact this would have on the other owners sharing the same lot.

It is essential that the Board of Appeals carefully considers the potential implications of Ms. Miles' actions and uphold the rights of residents like the Cristernas, who have invested in our neighborhood both financially and emotionally. Revoking the permit and ensuring compliance with property laws and neighborhood regulations is crucial to maintaining the integrity and safety of our community.

Thank you for considering my support for the Cristernas' appeal. Please feel free to contact me if you require any further information regarding this matter.

Sincerely,

Re: Letter of Support for Permit Appeal : 24-032 - Art & Miki Cristerna

Dear Members of the San Francisco Board of Appeals,

I am writing to express my full support for the Permit Appeal 24-032 filed by Art & Miki Cristerna concerning permit 2024/04/09/9596. I urge you to consider their request to revoke the permit of Beth Miles, the owner of 670 Shotwell Street, for removing a door that provided access to the easement on the Cristerna's property at 672 Shotwell Street. Additionally, I support their concerns regarding Ms. Miles' plans to build gates in a newly constructed fence that could potentially grant her and her Airbnb tenants access to the Cristerna's property.

Art and Miki have lived in the neighborhood, and funny enough on Shotwell Street, for over two decades. In that time, I have found them to be caring, outgoing, engaged, and just downright wonderful neighbors. I remember last year the two of them coming to the bar, they were brimming...THEY BOUGHT A HOUSE! The cherry on top was that it's just down the street from Shotwell's! It's the happiest I've seen them..so many challenges, so much hope..and they persevered, so proud of them. My happiness for them is two fold, my unselfish self gets to keep two excellent neighbors, and my selfish self gets to keep two wonderful patrons..Bravo to these two. It only took a few weeks before the other reality of home-ownership reared it's ugly head..and that's a disagreeable neighbor...we've all had them, and it's never pleasant.

So, with that, I share the Cristerna's significant concerns about the impact of Ms. Miles' actions on our community. It appears that Ms. Miles may be more focused on her economic gain from renting out an Airbnb suite rather than contributing positively to our neighborhood as a whole. By removing the door and planning to install gates that could potentially provide unauthorized access to the Cristerna's property, Ms. Miles is jeopardizing the privacy, security, and property rights of long standing residents like the Cristerna's.

It is essential that the Board of Appeals carefully considers the potential implications of Ms. Miles' actions on the community and uphold the rights of residents like the Cristernas who have invested in our neighborhood both financially and emotionally. Revoking the permit and ensuring compliance with property laws and neighborhood regulations is crucial to maintaining the integrity and safety of our community.

Thank you for considering my support for the Cristernas' appeal. Please feel free to contact me if you require any further information regarding this matter.

Re: Letter of Support for Permit Appeal : 24-032 - Art & Miki Cristerna

Dear Members of the San Francisco Board of Appeals,

I am writing to express my full support for the Permit Appeal 24-032 filed by Art & Miki Cristerna concerning permit 2024/04/09/9596. I urge you to consider their request to revoke the permit of Beth Miles, the owner of 670 Shotwell Street, for removing a door that provided access to the easement on the Cristerna's property at 672 Shotwell Street. Additionally, I support their concerns regarding Ms. Miles' plans to build gates in a newly constructed fence that could potentially grant her and her Airbnb tenants access to the Cristerna's property.

Art and Miki Cristerna have been long-standing residents of Shotwell Street in the Mission District for over 25 years. They have not only contributed to the community but have been exemplary neighbors who care deeply about the welfare and integrity of our neighborhood. During lock down in 2020, they organized a safe "happy hour" on their block, and it soothed our souls to meet them and their other neighbors outside their homes, talk, sing and play in the open air. Their twin boys and my son went to the same school, Buena Vista Horace Mann, also in our neighborhood, and have known each other since they were five. Miki and Art were key in organizing fundraisers for our kids' class, leveraging on their great connections to local business, such as the Napper Tandy. I recently went there to support another fundraiser that they held, this time for their twins' rugby team.

Last fall, it was a joy for our community when they were able to fulfill their dream of becoming first-time homebuyers, ensuring their continued presence and positive influence on Shotwell Street. I was proud to support my friend Miki during one particularly stressful step of that process, and like other moms in our circle of friends, I believe no other family deserves to finally own a decent, beautiful and safe home like the Cristernas. Miki and Art are dedicated educators, like myself, and have worked for years for several public school districts in the Bay Area, mostly with under-served populations. They are dedicated and decent people.

I share the Cristerna's significant concerns about the impact of Ms. Miles' actions on our community. It appears that Ms. Miles may be more focused on her economic gain from renting out an Airbnb suite rather than contributing positively to our neighborhood as a whole. By removing the door and planning to

install gates that could potentially provide unauthorized access to the Cristerna's property, Ms. Miles is jeopardizing the privacy, security, and property rights of long standing residents like the Cristerna's.

It is essential that the Board of Appeals carefully considers the potential implications of Ms. Miles' actions on the community and uphold the rights of residents like the Cristernas who have invested in our neighborhood both financially and emotionally. Revoking the permit and ensuring compliance with property laws and neighborhood regulations is crucial to maintaining the integrity and safety of our community.

Thank you for considering my support for the Cristernas' appeal. Please feel free to contact me if you require any further information regarding this matter.

Sincerely,

Merav Rozenblum

Re: Letter of Support for Permit Appeal : 24-032 - Art & Miki Cristerna

Dear Members of the San Francisco Board of Appeals,

I am writing to express my full support for the Permit Appeal 24-032 filed by Art & Miki Cristerna concerning permit 2024/04/09/9596. I urge you to consider their request to revoke the permit of Beth Miles, the owner of 670 Shotwell Street, for removing a door that provided access to the easement on the Cristerna's property at 672 Shotwell Street. Additionally, I support their concerns regarding Ms. Miles' plans to build gates in a newly constructed fence that could potentially grant her and her Airbnb tenants access to the Cristerna's property.

Art and Miki Cristerna have been long-standing residents of Shotwell Street in the Mission District for over 25 years. They have been my neighbors and friends for the same amount of time and they have not only contributed to the community but have been exemplary educators who care deeply about the welfare and integrity of our neighborhood. Last fall, it was a joy for our community when they were able to fulfill their dream of becoming first-time homebuyers, ensuring their continued presence and positive influence on Shotwell Street.

As a homeowner in the Mission District for more than 40 years and an employee for SFUSD for over 20 years, I too share the Cristerna's significant concerns about the impact of Ms. Miles' actions on our community. Our close knit community has been impacted by not only gentrification, but also by owners who are similar to Ms. Miles that are more focused on their economic gain from renting out an Airbnb suite rather than contributing positively to our neighborhood as a whole and being responsible homeowners who live in their homes. By removing the door and planning to install gates that could potentially provide unauthorized access to the Cristerna's property, Ms. Miles is jeopardizing the privacy, security, and property rights of long standing residents like the Cristerna's.

It is essential that the Board of Appeals carefully considers the potential implications of Ms. Miles' actions on the community and uphold the rights of residents like the Cristernas who have invested in our neighborhood both financially and emotionally. Revoking the permit and ensuring compliance with property laws and neighborhood regulations is crucial to maintaining the integrity and safety of our community.

Thank you for considering my support for the Cristernas' appeal. Please feel free to contact me if you require any further information regarding this matter.

Sincerely,

Victoria Araiza
