| Target Population:                                      | The program is designed to serve all ethnicities and populations with a focused expertise to meet the unique needs of United States born and immigrant Latino men who are gay, bisexual or Men who have Sex with Men (MSM), with an emphasis on those who live or socialize in the Mission, Tenderloin, South of Market and Castro areas. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                           |                                                    |                                                           |                           |                                               |                                                  |                      |                          |                     |  |  |
| Service Description:                                    | HIV-related stigma to zero in Sar<br>individual risk reduction counsel                                                                                                                                                                                                                                                                    | IFR will develop program plans for two programs: (1) Health Education and Risk Reduction (HERR) within Latino MSM; and (2) Special Projects to help improve the well being of Latino MSM. The goal of both programs is to reduce new HIV infections, HIV-related deaths, and HIV-related stigma to zero in San Francisco. These programs seek to improve the health of LGBTQ+ individuals and those living with and at risk for HIV, which will work towards reducing the stigma related to HIV, sexual orientation, and gender identity. Through group, individual risk reduction counseling, and prevention case management as well as HIV Testing, social marketing, and events that provide for the program goals, IFR will offer a continuum of HIV and LGBTQ+ wellness comprehensive services in a culturally appropriate way to the target population. IFR recognizes that to reduce HIV infection drivers, psychosocial factors is an important piece of HIV prevention. All services offered are client centered into the framework of Harm Reduction and non-judgment strength-based principles. |                                                           |                                                    |                                                           |                           |                                               |                                                  |                      |                          |                     |  |  |

Purpose: The requested action is the approval of a contract modification with the Instituto Familiar de la Raza to increase the Total Contract Amount with Contingency by an amount of \$1,564,151, as well as extend the term of this contract from 02/01/2017-06/30/2021 (4.42 years) to 02/01/2017 - 06/30/2023 (6.42 years). The Health Commission previously approved this contract on April 21, 2021. This contract provides for outreach services for men who have sex with men (MSM) in the Latino community neighborhoods and the additional COVID 19 funding will be used to address the urgent needs of individuals and families affected by the Covid-19 pandemic, particularly members of the Latinx community in San Francisco, who represent a significant percentage of Covid-19 identified cases. The proposed agreement is authorized under RFP 25-2016. Additional Funding will continue to support the PrEP Services for Latino (Men who have sex with Men) MSM Modality.

Reason for Funding Change: The Department is requesting the approval of a Total Contract amount with Contingency of \$3,985,105, or an increase of \$1,564,151 due to the following changes: (1) \$838,790, for Latino COVID Response Collaborative project carry-forward funds from FY 20/21 for FY21/22; (2) \$586,210, one time FY 21/22 Mayor Addback funding to continue support for Latino COVID Response Collaborative project; (3) \$213,096, for Getting to Zero: Prep Continuum; and (4) a Reduction of \$73,945 to the 12% Contingency value to have the Contingency value only applied to current and future years. Previous Contingency Amount was \$270,517 and current Contingency Amount is \$196,572. The proposed funding is through 6/30/22, while the proposed contract term is through 6/30/23. In the event that there is any carryforward of the FY20-21 COVID funding, this will allow a seamless transition to occur, without requiring a new amendment, unless the contract total exceeds \$3,985,105.

Please Note: The Annual Increase includes: 1) a decrease of One-Time COVID 19 funds from FY20/21 in the amount of \$1,290,422; 2) an increase of Cost of Doing Busines (CODB) in the amount of \$12,233; 3) Carry-Forward Funds from FY20/21 to FY21/22 in the amount of \$838,790; and 4) a one time Mayor Addback in the amount of \$586,210.

| Target Population:   | The programs are designed to serve all ethnicities and populations with a focused expertise to meet the unique needs of United States born and immigrant Latino men who have sex with men, with an emphasis on those who live or socialize in the Mission, Tenderloin, South of Market and Castro areas. The additional COVID19 Funding will target individuals and families, particularly members of the Latinx community in San Francisco affected by the COVID-19 pandemic. The COVID 19 funding will provide COVID19 outreach, health promotion, case investigation and contact tracing, linkages to COVID-19 testing, and wrap around services for members of the Latinx community.     |  |  |  |  |  |  |  |

| Service Description: | Getting to Zero: Community Based Pre-Exposure Prophylaxis (PrEP) Services: Services include community engagement, individual and group-based activities and are designed in a bilingual and bicultural manner to meet the unique needs of Latino men who have sex with men, who live or socialize in San Francisco. The goals of the program are: (1) to increase community knowledge and awareness of and interest in PrEP; (2) reduce barriers and support for accessing PrEP for individuals who might be considering using PrEP; 3) to increase PrE access by providing or linking to all necessary services; and 4) to increase PrEP maintenance by providing ongoing support for PrEP. |  |  |  |  |  |  |  |
|                      | Latino COVID-19 Response Collaborative: The COVID-19 Latinx Community Response Collaboration addresses the complex needs of individuals and families in San Francisco affected by the COVID-19 pandemic through health promotion, case investigation and contact tracing, linkages to COVID-19 testing, and wrap around services, particularly within the members of the Latinx community.                                                                                                                                                                                                                                                                                                   |  |  |  |  |  |  |  |
|                      | Latino COVID 19 Community Resource and Recovery Action Plan: IFR will manage the consultant All-In-Strategies' development of a community-driven response and recovery plan focused on the COVID-19 pandemic and its impact on San Francisco's Latinx community.                                                                                                                                                                                                                                                                                                                                                                                                                             |  |  |  |  |  |  |  |
|                      | Salary Pool for CICI rate increase: During the length of the local emergency due to the COVID-19 epidemic as declared by the Mayor of San Francisco, CT/CI staff will conduct culturally and linguistically appropriate case investigation and contact tracing to Latinx                                                                                                                                                                                                                                                                                                                                                                                                                     |  |  |  |  |  |  |  |
