New Business

Agency on Human Rights

Presenter: Denise Heitzenroder

AB 1267 (Pellerin): Marriage: prohibition on minors

Recommended Position: Support

This bill would update regulations to prohibit individuals under the age of 18 from receiving a marriage license.

San Francisco Reentry Council

Presenter: Alek Hartwick

AB 2384 (Lowenthal): Crimes: Records: Sealing

Recommended Position: Support

AB 2384 expands access to record sealing by allowing individuals who remain conviction-free for four years after completing their sentence or following an arrest that did not result in conviction to petition the court to seal eligible criminal records. The Reentry Council recommends supporting AB 2384 because it reduces barriers to employment, housing, and economic stability while promoting successful long-term reentry.

San Francisco Reentry Council

Presenter: Alek Hartwick

AB 2428 (Rodriguez): Eliminating Poverty Fees

Recommended Position: Support

AB 2428 continues California's efforts to eliminate criminal administrative fees that disproportionately burden low-income individuals and create barriers to successful reentry. The bill repeals the remaining poverty-based criminal administrative fees, including fees related to payment plans, bounced checks, community service, and access to court-ordered programs. The Reentry Council recommends supporting AB 2428 because reducing unnecessary financial obligations promotes successful reintegration, improves compliance with court requirements, and advances a more equitable justice system without compromising public safety.

Department of Public Health

Presenter: Sarah Neukrug

AB 2486 (Addis): Medi-Cal: Whole Child Model program

Recommended Position: Support

AB 2486 ensures that families, providers, and stakeholders can continue to shape the California Children's Services (CCS) Program by extending the CCS Advisory Group past its current sunset date of December 31, 2026. Feedback from the Advisory Committee strengthens care coordination and improves outcomes for some of California's most medically vulnerable children participating in the program.

San Francisco Municipal Transportation Agency

Presenter: Monique Webster

SB 741 (Blakespear): Low Carbon Transit Operations Program

Recommended Position: Support

SB 741 would update and streamline the Low Carbon Transit Operations Program (LCTOP). The LCTOP receives funding through the Greenhouse Gas Reduction Fund (GGRF) and directs millions of dollars annually to transit agencies around the state on a formula basis. These monies have allowed transit agencies to sustain and expand service, procure new zero- emission vehicle fleets, and start fare subsidy programs. Unfortunately, since its inception a decade ago, LCTOP's requirements have proven to be in some cases duplicative and overly burdensome. SB 741 would simplify Caltrans' administrative role, expand eligible uses of program funds to include transit maintenance, and eliminate redundant GHG demonstration requirements for continuing projects.

Department of Environment

Presenter: Joseph Piasecki

SB 936 (Blakespear and Umberg): Nitrous oxide: sales

Recommended Position: Support

SB 936 aims to address a growing public health, waste management, and public safety concern by prohibiting the sale of nitrous oxide in forms that, while nominally intended for legitimate, lawful purposes, are widely used for recreational inhalation. The bill also establishes penalties and other enforcement actions for violations of the new requirements.

San Francisco Public Utilities Commission

Presenter: Scott Ammon

SB 943 (Becker): Public utilities: electricity: retail transmission rates: industrial transition usage

Recommended Position: Support

The bill would establish that it is the policy of the State that transmission costs should be allocated to ratepayers based on cost-causation principles. The bill would express the intent of the Legislature that the California Independent System Operator (CAISO) take notice of the policy of the State regarding transmission cost allocation. Additionally, SB 943 would direct the California Public Utilities Commission (CPUC) by January 1, 2028 to request the CAISO reconsider potential

reforms in the transmission access charge structure enhancements proceeding. SB 943 would direct the CPUC to submit to the CAISO recommended changes to the TAC structure to be consistent with cost-causation principles.

- V. GENERAL PUBLIC COMMENT.** Members of the public may address the Council on items of interest that are within the Council's subject matter jurisdiction and that do not appear on the agenda.
