New Business

Department of Environment

Presenter: Joseph Piasecki and Alice Hur

SB 1283 (Ashby): Electric vehicle charging stations: installation: permits
Recommended Position: Support

To keep pace with the growing demand for EV charging deployment, AB 1236 (2015) streamlined the permitting and installation of electric vehicle (EV) charging stations by requiring local jurisdictions to approve these stations through a non-discretionary administrative permit process (e.g., a building permit) that did not require design review. It also prohibited jurisdictions from requiring a use permit for these charging projects unless the charging station would have a specific, evidence-backed adverse impact on health and safety. Lastly, AB 1236 required every local government to adopt, pursuant to specified deadlines, an ordinance and checklist that creates an expedited, streamlined permitting process for EV charging stations.

SB 1283 extends this administrative permit process to EV stations with a canopy, or onsite energy storage systems sized to support charging. The proposed bill also requires expansion of jurisdictions' existing EV charging streamlining ordinances and checklists to implement these changes and include certain EV supporting infrastructure (e.g., battery storage, paving, concrete pads, or utility trenches). Further, SB 1283 requires local jurisdictions to provide written notice to applicants no later than 30 days after approval, as well as identify all permits and authorizations that have been granted.

Department of Public Health

Presenter: Max Gara

AB 2135 (Kalra): Long-term health care facilities
Recommended Position: Oppose unless Amended

AB 2135 makes several changes to long-term health care (LTC) facility requirements when discharging a resident, including requiring that a 14-day notice is provided to residents who pose a risk to the safety of facility staff or residents before the resident is transferred or discharged.

Film SF

Presenter: Manijeh Fata

AB 2319 (Schultz): Personal Income Tax Law: Corporation Tax Law: credits:

qualified motion picture: post-production

Recommended Position: Support

AB 2319 would establish a standalone California Post-Production Tax Credit administered by the California Film Commission. The bill would provide a tax credit of 35% to 50% for qualified post-production expenditures incurred in California, including editing, sound design, scoring, visual effects, color correction, and other post-production services. The legislation fills a gap in California's existing Film & Television Tax Credit Program by incentivizing post-production work regardless of where principal photography occurred. Film SF recommends supporting this bill because it would help retain and attract high-wage creative and technical jobs, strengthen California's post-production industry, and generate economic activity throughout the state, particularly for post-production facilities and media-sector employment in San Francisco.

Film SF

Presenter: Manijeh Fata

AB 2403 (Elhawary and Schiavo): Income Tax: credits: Commercial Production

Recommended Position: Support

AB 2403 would establish a California Commercial Production Tax Credit Program administered by the California Film Commission. The bill would provide tax credits for qualified commercial productions filmed in California, with enhanced incentives for productions filming outside the Los Angeles zone. Film SF recommends support because the bill would help retain and attract commercial production activity, support high-wage creative and technical jobs, generate economic activity for local businesses, and improve California's competitiveness with other states and countries that offer incentives for commercial production.

Office of the Treasurer & Tax Collector

Presenter: Rebecca Loya

AB 2558 (Berman): Financial institutions: loans: interest rates

Recommended Position: Support

AB 2558 would extend the Military Lending Act's 36 percent annual percentage rate cap to small-dollar consumer loans and deferred deposit (payday) transactions in California.

Office of the Treasurer & Tax Collector

Presenter: Rebecca Loya

SB 498 (Becker): Incarcerated Persons: Communications

Recommended Position: Support

SB 498 would eliminate arbitrary 15-minute limits on tablet voice calls and provide free electronic messaging services for incarcerated individuals and their loved ones, providing much-needed relief to low-income incarcerated people and their families.

V. GENERAL PUBLIC COMMENT. Members of the public may address the Committee on items of interest that are within the Committee's subject matter jurisdiction and that do not appear on the agenda.
