Subject: MCCP Post-Appointment Compensation Adjustments (FY25-26)

In Fiscal Year 2025-26, the City will end the FY24-25 pilot process and revert to former post-appointment process. Range B & C ongoing, wage increases and one-time, lump sum bonuses will be available again to departments pursuant to a prescribed pool of dollars and only through this once-a-year process. Additionally, employees will continue to be able to nominate themselves for adjustments.

Proposals for compensation adjustments will be evaluated and approved by the MCCP Adjustment Committee consisting of representatives from the Controller, DHR and MEA.

I. Deadlines to Submit Requests for MCCP Compensation Adjustments

A. Self-Submissions: Employees may make submissions on their own behalf by e-mail sent directly to each department's personnel officer, using the [Employee Submission Form](#) between **Monday, November 3rd** and **Friday, November 7th** with a copy to MEA as well (staff@sfmea.com). Departments must consider these employee self-nominations for adjustments during their departmental review process. Do not submit employee submission forms to DHR.

B. Department Submissions: The deadline for departmental submissions is the close of business, **Friday, December 5th**.

Submit [Department Submission Forms](#) via e-mail to Emily.Lee@sfgov.org with a copy to MEA as well (staff@sfmea.com).

II. Departmental Budgets for Increases and Bonuses

The MEA MOU funds each department with 0.25% of its MEA payroll for ongoing wage increases (retroactive to July 1, 2025) and 1.00% of its MEA payroll for one-time, lump sum bonuses. Please note, unused funds do not roll over into subsequent years; rather, unused funds will be reallocated by the Committee for expenditure during the fiscal year in a manner consistent with the terms of the MOU.

- **Ongoing Wage Increases (in Ranges B & C or Steps for Non-MCCP):** One-quarter-of-one percent (0.25%) may be used for ongoing wage increases (e.g., an ongoing base wage increase from \$160,000 to \$162,000 retroactive to July 1, 2025).
- **One-Time, Lump Sum Bonuses:** One percent (1.00%) may be used for one-time, lump sum bonuses (e.g., a one-time, lump sum bonus of \$2,500).

Based on the FY25-26 budget, a chart showing each department’s allocations for MCCP compensation adjustments follows. Medium and large departments (i.e., those departments with an ongoing allocation over \$5,000) are listed individually.

MEA and the City have agreed to pool the funds for the remaining smaller departments in order to provide additional flexibility and equity. Departmental budget allocations for these departments will be used as a general guide by the MCCP Adjustment Committee, but will not be considered definitively regulating. Departments not specifically listed below are in the Smaller Department pool.

Department	Ongoing (0.25%)	One-Time (1.00%)

Early Childhood	\$5,000	\$20,000
Smaller Departments	\$40,000	\$161,000

Please note the following:

- Both one-time, lump sum bonuses and ongoing wage increases are pensionable and attributed to final compensation calculations at the time of payment (i.e., are not associated with the prior fiscal year);
- Individual employees may receive both an ongoing wage increase and a one-time, lump sum bonus; and
- Retirees (Prop. F) and As-Needed employees are not eligible for post-appointment adjustments;
- Employees must still be actively employed with the City at the point of distribution in order to receive payment (e.g., an employee retiring in January would not be eligible for a post-appointment adjustment paid out in the following March).

III. Increase and Bonus Considerations

When seeking approval, Appointing Officers will note which of the following criteria is the basis for the requested adjustment:

- Performance / Merit: e.g., one employee received a performance evaluation of exceeding expectations and the other received a performance evaluation in which met expectations.
- Education: e.g., one employee has a JD and the other employee has a BA if this education is job related and serves a legitimate business purpose.
- Training: e.g., one employee completed a job-related training program such as management training.
- Experience: e.g., one employee has four years of experience while the other employee has two years of experience if this experience is job related and serves a legitimate business purpose.
- Seniority: e.g., one employee has been working in the department in the position for six years while the other employee has been working in the department in the position for three years.
- Internal Equity: Paying employees performing the same work the same if there is no job-related reason to pay differently.

In the interest of equitable distribution among employees, departments must follow these guidelines in developing their submissions:

- Employees must have been at or above the top of range A as of July 1, 2025 to be eligible (as employees below the top of A may still be advanced within Range A at the discretion of the department); further, those who have advanced to the top of A within the preceding fiscal year already received a step increase in addition to any general wage increase, so should be given less consideration than those that have been at the top of A for the entire, preceding fiscal year;
- Employees must have been in their current MEA position since at least January 1, 2025; employees that meet this initial criteria, but promote into a new MEA position in the same department on or after January 2, 2025 remain eligible for a lump sum adjustment;

- Those who have not already received ongoing wage increases should receive first consideration;
- Proposed increases and/or bonuses must be between \$2,000 and \$9,000 per employee (e.g., \$4,000 ongoing and \$5,000 one-time; \$1,000 ongoing and \$1,000 one-time);
- An employee may not receive a lump sum bonus that when added to the employee’s base salary would have that employee’s compensation exceed Range C (e.g., an 0922 earning \$205,000 receiving a \$5,000 one-time, lump sum bonus would exceed the top of C which is \$208,858);
- An employee in an eligible non-MCCP classification may not receive a lump sum bonus that when added to the employee’s base salary would have that employee’s compensation exceed the top salary step;
- Post-appointment funds should be distributed among all managerial levels in a department;
- Between 30% and 50% of the department’s eligible managers should receive increases and/or bonuses;
- Proposed increases and/or bonuses should vary among managers, to reflect variations in performance;
- Proposed increases and/or bonuses should have proportionality to the employee’s rate of pay;
- One-time, lump sum bonuses are best reserved for performance or special projects; and
- Ongoing wage increases are best reserved for structural issues.

Departments should advise their employees as soon as possible of their internal process and the criteria that they will apply when deciding what adjustments to propose.

Departments shall inform managers who self-submitted and were not approved for an adjustment the reason their submission was not approved. Further, for managers who did not self-submit and were not approved for an adjustment, departments shall inform such employees the reason one was not approved upon the request of the employee.

As a reminder, the post-appointment process is designed to address the compensation of individual incumbents. To the extent that there are changes in the responsibilities of a position, this program should not be a substitute for reclassification.
