Hello.

I'm not allowed to call. I'm sending this email. This is in reference to item 3. This is in reference to the Civil Art Collection. I think there should be a mention of items that Art works in the civic art collection, but on the property of the city, such as Rec and Park in the Department of Public Works. The Art Commission should play a more active role in making sure the artwork in the civic art collection is preserved and maintained.

Thank you for your consideration of this issue.

Best.

Richard
