YOUTH COMMISSION
MEMORANDUM

TO: **Board of Supervisors Government Audit and Oversight Committee**

CC: Monique Crayton, Assistant Clerk
Angela Calvillo, Clerk of the Board
Alisa Somera, Legislative Deputy Director

FROM: 2026-2027 Youth Commission

DATE: Wednesday, October 21, 2026

RE: SUBJECT: YOUTH COMMISSION LEGISLATION REFERRED 10/06/26

At the Youth Commission's in-person meeting on Monday, October 19, 2026, the Commission discussed and took action on BOS File No. 261098:

1. The Youth Commission unanimously and positively recommends this hearing to the Board of Supervisors and the Mayor.
2. Youth Commissioners are submitting the following questions to the hearing:
    - How quickly will 311 reports be addressed, along with potentially new technology rollouts?
    - Can the responsible departments prioritize daily street cleanings around schools to ensure youth are safe?
    - In addition to this current hearing, what are the multi-agency discussions about how to address poor street conditions, including but not limited to BART and SFTMA?
    - How will departments ensure constant staffing around SFUSD schools to ensure conditions are safe?
    - Will the new app discussed by the Public Safety and Neighborhood Services committee (10/08) work alongside DMACC driving around and 311 cleanliness calls, and if so, what is the outreach plan to show constituents how to use it?
    - What additional resources have the Mayor's Office and City Departments allocated to address safety concerns near schools?
    - If these resources have not proved sufficient in light of recent reports, what additional measures or resources are City Departments prepared to implement to address these newer concerns?

- Why have conditions worsened in this area despite the City's attempt to address street conditions?
- Has SFUSD made a personal effort to reach out to parents and community members about these issues, and are there any measures they have personally implemented to try and address these safety concerns? What is the school district's plan moving forward?
