Secretary Alice Hur,

I support the proposal to increase funding for the Department of the Environment by \$3M . The Department needs this money to properly do its work.

This request is supported by the voter-mandated Proposition F, which states that the payments from Recology must be adequate to meet the City's environmental goals, besides assuring proper and fair pricing for refuse services.

I am asking you to approve the additional \$3M to SFE.

Thank you,
Elena Engel
