

## San Francisco Health Network Maternal, Child, Adolescent Health

### Yuhui (Harry) Zhou – Epidemiology Intern, Fall 2024–2025

Harry Zhou is a healthcare-focused data analyst and entrepreneur with expertise in statistical modeling, biomedical research, and healthcare operations. He is currently pursuing a Master of Public Health at the University of California, Berkeley, after earning a Bachelor of Science in Chemistry with a minor in Statistics from UC Santa Barbara.

Harry has applied Python, R, and SQL in projects ranging from clinical trial data analysis to healthcare retail optimization. His work has led to measurable improvements in patient satisfaction, workflow efficiency, and data reliability.

Beyond healthcare, Harry has co-founded and led ventures in AI-driven e-commerce and healthcare project management in Africa. These experiences highlight his ability to combine technical analytics with strategic leadership.
