

[Supporting California State Senate Bill No. 1292 (Richardson) - Enhanced Curb Management System]

Resolution supporting California Senate Bill No, 1292, introduced by Senator Laura Richardson, enabling cities to implement enhanced curb management systems that will increase compliance with parking rules and reduce double parking.

WHEREAS, On February 20, 2026, Senator Laura Richardson introduced Senate Bill No. 1292 (SB 1292), which enables cities to implement enhanced curb management systems; and;

WHEREAS, The effective operation of loading zones is essential to the safe and efficient operation of our City's transportation network; and

WHEREAS, When a loading zone is occupied illegally, it can push delivery options into travel lanes, which can block Muni vehicles and create a dangerous environment for cyclists and other vulnerable road users; and

WHEREAS, Under current law, most violations must be committed with a Parking Control Officer present and that officer needs to place a physical ticket on the offending vehicle, a time-consuming and potentially dangerous process that means that most violations go uncited; and

WHEREAS, Violations in loading zones, bike lanes, and crosswalks can create unsafe conditions for vulnerable road users, but can be especially difficult to enforce due to the short duration of the infraction; and

WHEREAS, The proliferation of food delivery apps, increased parcel delivery, and autonomous vehicles will continue to exacerbate the demand for short-term curb space, and;

WHEREAS, Automated enforcement of transit-only lanes, red light violations, and speeding violations have delivered more efficient transit service and safer streets; and

1 WHEREAS, Objective 3.5 of the Curb Management Strategy, adopted by the San
2 Francisco Municipal Transportation Agency (SFMTA) Board of Directors in 2020 and on file
3 with the Clerk of the Board of Supervisors in File No. 260310, which is hereby declared to be
4 a part of this resolution as if set forth fully herein, calls for “pursu[ing] state legislation
5 expanding camera-based enforcement” to enable more efficient enforcement of parking and
6 loading violations; and

7 WHEREAS, Policy 29 of the Biking and Rolling Plan, adopted by the SFMTA Board of
8 Directors in 2025 and on file with the Clerk of the Board of Supervisors in File No. 260310,
9 which is hereby declared to be a part of this resolution as if set forth fully herein, states that
10 the City should “[p]rioritize unbiased enforcement in places that are critical for safe travel,” a
11 policy goal which would be enabled by the passage of this legislation; and

12 WHEREAS, Section 8A.115 of the San Francisco Charter, which is on file with the
13 Clerk of the Board of Supervisors in File No. 260310 and which is hereby declared to be a
14 part of this Resolution, as if set forth fully herein, says that the “City and County shall
15 encourage innovation solutions to meet public transportation needs wherever possible;” and

16 WHEREAS, Cameras and sensors can help expand the reach of the City’s Parking
17 Control Officers and maximize the City’s ability to enforce its parking laws and ensure safer
18 streets; and

19 WHEREAS, SB 1292 would authorize local governments to implement “enhanced curb
20 management systems” that utilize fixed cameras and sensors to assist in the enforcement of
21 loading zones, zero-emissions delivery zones, bicycle lanes, no stopping zones, and
22 crosswalks; and

23 WHEREAS, SB 1292 would also allow cities to charge fees at designated passenger
24 and commercial loading zones (with restrictions as outlined in the current draft of the law and
25

1 in potential future amendments), incentivizing shorter stops while also generating revenue to
2 support safer streets and transit operations; and

3 WHEREAS, The legislation requires human supervision of citations and robust
4 safeguards of private data; now, therefore, be it

5 RESOLVED, That the Board of Supervisors of the City and County of San Francisco
6 hereby supports Senate Bill 1292, which enables cities to implement enhanced enforcement
7 of loading zones, bicycle lanes, no stopping zones, and crosswalks; and, be it

8 FURTHER RESOLVED, That the Board of Supervisors urges the California State
9 Legislature and the Governor to enact SB 1292 to allow for San Francisco to enforce safe
10 streets; and, be it,

11 FURTHER RESOLVED, That the Clerk of the Board of Supervisors shall transmit a
12 copy of this Resolution to the Governor of California, President pro Tempore of the California
13 State Senate, Speaker of the California State Assembly, and Senator Laura Richardson to
14 express the City and County of San Francisco's strong support for this legislation.
